

PUBLISHED WEEKLY

BOARD ORDERS STREET PAVING

At the meeting of the Daly City board of trustees held last Monday night at the City Hall, all members of the board were present, and Mayor H. H. Smith presided.

Chairman O'Rourke of the street committee instructed City Engineer Kneese to prepare final plans for the paving of all unfinished streets and laterals in the Vista Grande, Mission and Hillcrest tracts. This means that practically all of the streets of Daly City south of Hillcrest avenue and west of Mission street will be completely paved. Only a few scattered blocks in Daly City will remain unpaved.

Fire Chief Kennedy reported that the three new fire alarm boxes that had been ordered by the board will be in operation in a few days. One will be at Roosevelt and Frankfort, one on Acton, and one in the Metropolis Homestead Tract.

A petition signed by six residents of the Metropolis Homestead Tract, complaining of the unsanitary condition of a cow shed in that tract, was received. Trustees Bodien and Sundermann were appointed as a special committee to investigate.

The ordinance committee instructed the Fire Commissioners to draw up a fire ordinance, compelling all public meeting places and public garages to install suitable fire extinguishers, sand boxes and such other emergency apparatus as may be deemed necessary.

The street committee recommended that the request of the New Daly Vulcanizing Works, on Mission street between Crocker and Wellington avenues, for a gasoline pump, be denied, as a menace to life and property because of the narrow sidewalk and proximity to the highway.

Poundmaster George Burrick handed in his resignation, to become effective immediately. He declared he wished to retire to private life, and thanked the board for the appointment. Meanwhile the board is looking for another means of disposing of unlicensed animals.

Trustee Moran reported the new pump house at Niantic and Citrus avenues had been completed.

A number of bills were ordered paid and other routine matters disposed of.

POPULAR COUPLE UNITED IN MARRIAGE

Mrs. Ida Preston, the oldest daughter of Mr. and Mrs. John Hesselein, 209 Woodrow street, Daly City, was united in marriage to Mr. Victor Dickson, son of Mr. and Mrs. M. Dickson, of San Bruno, Thursday evening, September 28, at a beautiful and quiet little wedding at the home of her parents.

The bride was dressed in a beautiful gown of periwinkle blue georgette crepe, and wore a bouquet of pink bride roses.

Miss Beatrice Dickson, sister of the groom, was bridesmaid, and Mr. John Hesselein, Jr., brother of the bride, acted as best man.

The parents, sisters and brothers of the bride and groom were the only guests at the wedding. After the ceremony, which was performed by Rev. H. Schroder of the Lutheran of San Francisco, a wonderful supper was served in honor of the newly-weds.

Mr. and Mrs. Victor Dickson are well known in Daly City, Colma and San Bruno, both having been raised in this county, and both being graduates of the Jefferson grammar schools. After a honeymoon in the northwestern part of the state, the newly-weds will part of the state, the newly-weds will make their home in Daly City, and later will build their own home in San Mateo county.

Those present were: Mr. and Mrs. John Hesselein, the bride's parents; Mr. and Mrs. M. Dickson, the groom's parents; Mr. and Mrs. Robert Mullin; Mr. and Mrs. William Hesselein, of Pescadero; Mrs. Marie Lenz, of the bride's grandmother; Rev. and Mrs. H. Schroder; Misses Myrtle Helen Mullin, Beatrice Dickson, Lillian Dickson, Ruth Hesselein; Messrs. John Hesselein, Jr., Emil Hesselein, Wilbur Hesselein, John McElrath; Masters Wil-Dickson, John Preston, the bride's son; Charles Hesselein, Robert Mullin, Jr.

FOUND IN WRECKED CAR NEAR CEMETERY

Edward Sheehan, of South San Francisco, is in the hospital with a fractured jaw and other injuries received late Saturday night in an automobile collision on the highway near the cemeteries. Sheehan was found in his car in a semi-conscious condition by passing motorists, and was rushed to the hospital. His car, which had just recently been purchased for him by his parents, was reduced to a mass of wreckage. Police are looking for a hit-and-runner.

DELAYS BREAKING OF BOTTLENECK

Awarding of a contract for grading and drainage preliminary to breaking the Colma "bottleneck" has been postponed by the State Highway Commission on October 5.

At the meeting of the commission last Tuesday the contract for the work was not let because negotiations for obtaining new right-of-way on the peninsula highway south of Colma were incomplete.

Work of clearing away the new right-of-way to which the state has obtained access has already begun, according to Colonel John H. Skeggs, division highway engineer. The stone station which marks the entrance to Cypress Lawn cemetery has already been removed, so as to clear the right-of-way. A retaining wall is being constructed along the east side of the cemetery adjacent to the new right-of-way.

About twenty-five buildings, including two hotels, a flower shop, several monument plants and some residences, must be moved to make way for the broadened highway. The channel of Colma creek also must be diverted. Some delay has been met in moving the monument plants, because the valuable and heavy stone require careful handling.

Bids were received two weeks ago for the contract for grading and draining the broken bottleneck right-of-way at a cost of about \$200,000. Skeggs said present hindrances to the letting of the contract probably would be removed within the next week.

AMERICAN LEGION PLANS TO OBSERVE EDUCATION WEEK

Observance of American Education week, November 7-13, by every Post of the American Legion in California has been requested, by Dr. John F. Slavich, state commander of the veteran's organization. The National Education Association, the American Bar Association and the National Society, Daughters of the American Revolution, are co-directing the Education week programs with the Legion officials.

"American Education week has become a permanent institution because it deals with problems so fundamental as to appeal to all people, and we should strive to make the movement more effective in its task of universal education for democratic living," declares State Commander Slavich.

The purpose of the week is to acquaint the public with the work and needs of the schools and every program which the Legion Posts will arrange is to be organized to accomplish this end," Slavich says.

Co-operation with the various local organizations in each community in the observance of the week is sought by the Legion officials.

BUILDING PERMITS SHOW MOST DECIDED INCREASE

B. C. Ross, city clerk, reports the following building permits for last week:

John R. Lindsay, 849 Brunswick, five rooms and garage; 853 Brunswick, five rooms and garage; 859 Brunswick, five rooms and garage; 863 Brunswick, five rooms and garage; 865 Brunswick, five rooms and garage.

John R. Lindsay, 175 Acton, five rooms and garage; 177 Acton, five rooms and garage.

John R. Lindsay, 117 Acton, four rooms and garage; 127 Acton, four rooms and garage.

Al. Schmid, 133 West Lake, four rooms and garage.

Duerner Bros., 188 Winchester, five rooms and garage.

William Shaner, 285 Hillcrest, double garage.

A. L. Stockton Lumber Company, 6124 Mission street, warehouse.

L. D. Elia, 6235 Mission, concrete garage.

H. Bengfeld, 867 Hanover, five rooms and garage.

The value of these is \$60,000.

Just one week's building permits. Some growth!

STATE THEATRE WILL ENTERTAIN HIGH PUPILS

Next Tuesday, October 5th, will be Jefferson Union High School Parent-Teachers' night at the State Theatre, when the pupils and faculty and the P. T. A. members will enjoy the special features, and it is expected that a large number of the residents of this city will be in attendance. The ticket sale so far has been most gratifying. The feature picture will be "The Still Alarm," a heart interest in the drama, with sensational thrills, the biggest success of the year. The drama, with singing and dancing, a Dalesy in singing and dancing, a comedy act, and a sketch by high school students will round out a bill that you can not afford to miss.

BANDITS ROB FOUR ON THE SKYLINE

Two "petting party" bandits early Wednesday morning held up and robbed two couples on the Skyline boulevard near Colma. They obtained two watches and considerable currency from the men, and then, apologizing to the girls, the highwaymen leaped into an expensive sedan and disappeared through the gathering mist.

The victims were John Hammond, Felix Sire, Thelma Lloyd and Vera Martin, all of San Francisco. The two couples had driven out to a quiet spot on the Skyline boulevard in Hammond's automobile.

Suddenly two smiling bandits appeared on the scene, and tipping their hats to the young ladies, requested the men to hand over their valuables. After robbing the young men, the bandits ordered the occupants of the machine to remain quiet, and again tipping their hats to the young ladies, jumped into their machine and drove away.

The robbery was reported to Constable S. A. Landini, of Colma, and although a patrol was established on the highway, no trace of the bandits has as yet been discovered.

RALLY DAY PROGRAM AT GRACE PRESBYTERIAN

Next Sabbath evening, October 3, there will be a splendid program given at Grace Presbyterian church, beginning at 7:45, with the orchestra. The orchestra will have special numbers. A company of Chinese students will be with us from the Chinese church on Stockton street. They will furnish us with special music and their leader will give an address on their work among the Chinese people. A radio will be installed and we will listen in to what the others are doing in San Francisco during the evening.

There will be solos and duets by the people of the church and from other churches, so that a general good time is promised, and we are looking for a good crowd, and Mr. Rae, the Sunday school superintendent, is very anxious that it be at least 150. So come and help him to realize his desire.

A special is being prepared by the C. E. Society which will be held at the church parlors on Wednesday evening of next week, and a real enjoyable evening is promised for this occasion.

Bear in mind the program for Sunday evening will begin at 7:45, and be on time.

Chas. H. Gatchell, Minister. Phone Delaware 1544.

CALIFORNIA ELKS WILL MEET IN SANTA MONICA

John J. Lermen, president of the California Elks Association, claims that much enthusiasm is being shown in the coming state convention will be held in Santa Monica on October 6, 7, 8 and 9, with probably one of the largest membership attendance in the history of the association.

San Francisco lodge has already chartered the S. S. Alexander to carry their large delegation to the convention. Mr. Lermen states that lodges in the northern part of the state will turn out large delegations, many of them bringing their bands and crack drill teams. Bakersfield lodge, with its champion drill team, will attend with nearly a full quota of its membership. Other northern lodges have written for reservations for large delegations.

ONE MORE DAY LEFT TO REGISTER

Those who did not register for the primary election, August 31, have just one more day left in which to get their names on the books if they wish to vote at the general election November 2. Tomorrow (Saturday) is the last day for registration. If you have not registered, and desire to cast your vote at the November election, see one of the following at once:

B. C. Ross, City Hall.
Judge Ellis C. Johnson, City Hall.
Mrs. May E. Hawkins, 139 Knowles avenue.

Mrs. Ella McKee, 39 Irvington street.

John J. Fahey, 6284 Mission street.

Mrs. Ida Preston, 209 Woodrow street.

Mrs. Catherine Reinhart, 1056 Brunswick street.

Judge Johnson announces that those voters who can not reach his office before 5 p. m., may call at his home, 251 Crocker avenue, in the evening, as he will be on duty until midnight.

Mrs. May Hawkins will also register voters until midnight.

A total registration of 25,000 for the county is expected before closing time Saturday night.

DUMBARTON SPAN NEAR COMPLETION

Last Wednesday more than a score of members of the Redwood City Chamber of Commerce walked across San Francisco bay. The novel walk was over the new Dumbarton highway bridge just south of Redwood City, and marks practical completion of the first span over the bay for the use of the public.

Automobiles in which members of the Chamber of Commerce drove to the bridge site on invitation of officials of the bridge company, could have been driven across the new span, except for the fact that paving on the approaches is not yet completed, and there is yet some paving to be done on the flooring of the big bridge.

About 100 automobiles joined the caravan invited to inspect the new bridge. Members of the inspection party were enthusiastic in praise of the new bay bridge, situated just north of the Dumbarton railroad bridge, erected some years ago by the Southern Pacific Company.

Formal opening of the big steel span is to be held in about two months, in the opinion of officials in charge of construction work. The bridge structure is complete, but paving of the floor of the spans and on the fills which form approaches on both the San Mateo and Alameda county ends is yet to be laid, it was stated.

The trip Wednesday was made to interest officials of the Redwood City chamber in a monster celebration which is to mark the formal opening of the bridge to traffic. It was also desired to acquaint chamber members with the route of the direct highway proposed to link Redwood City with the bridge head, which is to be presented to San Mateo county supervisors at their next meeting.

AUTOMOBILE CAMP OWNER ENJOYING MOTOR TRIP

Mr. and Mrs. J. Vasey and son, of the Mission Auto Camp, are enjoying an extended motor trip in the Middle West. They will visit friends at Wichita, Kansas, and after spending some time there will go on to Albion, Oklahoma, where they have numerous friends. News has just been received at the Record office that the weather is fine and the roads are in splendid condition, and if the fine weather continues they expect to be gone at least a month. During Mr. Vasey's absence the camp is being conducted by H. O. Friend, who reports that the tourist traffic in the Mission Auto Camp has surpassed that of any previous year.

A COMMUNICATION

Editor Daly City Record:

Appearing in the Daly City Record on the 24th instant there is an erroneous report in an article on page 8, column 4, pertaining to high school athletics. The article in question states that Potter high last year fought the Lick Tigers to a standstill. I wish to state that the Lick-Wilmerding Potter game of 1925 ended with the official score: Lick-Wilmerding, 42; Potter High, 2. Due credit must be given to Potter, game credit that they were and are, but their two points came late in the fourth quarter, when Lick's entire first and half of her second team were on the side-lines. Believing that the error was made only through lack of official information, and trusting that you will accept this letter in good will, I am,

Yours very truly,
JERRY GRUMAN.

QUICK WORK OF FIREMEN SAVES HOME FROM RUIN

Only the quick action of the Daly City Volunteer Fire Department saved the home of T. Bentley, 336 San Diego avenue, from destruction last Thursday. At noon the alarm was sent out to the fire department, and the firemen quickly responded to the call. On arriving at the Bentley home, they found the flames bursting through the roof, but in a remarkably short time the firemen had their ladders and hose in operation and soon had the blaze under control. Marshal Jack Doyle and F. Twoston were the first on the roof, and with the other members of the fire department did splendid work in bringing under control what might have been a disastrous fire.

State Realty Values Increase

California property has a total assessed value this year of \$7,037,120,284, representing an increase of \$7,914,809 over the 1925 valuation, it is announced by the State Board of Equalization. Real estate this year is assessed at \$3,327,795,291, a gain of \$145,098,094 over last year's assessment. Personal property, however, has been assessed at \$757,785,587, a decrease under the valuation of 1925.

HIGH COMPLIMENT PAID MRS. KNEESE

Elizabeth M. Kneese, county clerk, was elected third vice-chairman of the Republican State Central Committee at a meeting of Republican leaders at the Palace Hotel in San Francisco last Saturday.

Charles L. Neumiller, of Stockton, was chosen chairman of the central committee at the meeting, which was attended by many prominent party leaders, who gave a rousing reception to Lieutenant Governor C. C. Young and Senator Samuel Shortridge, party nominees. Both Lieutenant Governor Young and Senator Shortridge addressed the meeting.

Selection of Mrs. Kneese and other executives of the committee was made by acclaim. The honor to the San Mateo county woman comes as recognition of her services in many hotly contested political fights, and as a tribute to her leadership in this portion of California.

Mrs. Kneese received the largest single vote among San Mateo county candidates at the August primaries, and has long been identified with Republican leadership in political circles of San Mateo county.

WORK WILL START SOON ON HARBOR NEAR BELMONT

Dredging of the artificial harbor near Belmont, to be known as Port San Francisco, has been authorized by directors of the San Francisco Bay Terminals Company, and work will begin immediately.

The completion of this project will mark the largest industrial deep water terminal ever attempted. Construction of the artificial harbor, which will be twenty miles south of the Ferry building, will represent an expenditure of over \$7,000,000, it is estimated.

Contract for dredging has been let to the United Dredging Company. It is valued at \$2,500,000, according to late reports. It is hoped that work will begin next week.

The proposed new harbor embodies an industrial program covering 7,000 acres of waterfront land lying between Belmont and Redwood City.

A statement issued regarding Port San Francisco is as follows:

"The original holdings of 4,500 acres have just been added to with the purchase of another big area adjoining, and when completed, it is said, the project will be the greatest industrial terminal of its kind. The project involves the building of an entire city. The industrial area has been laid out along scientific lines by Chief Engineer Charles H. Davies, and a city planning engineer of national reputation has been engaged to design the city."

DALY CITY RESIDENT VISITS IN HONOLULU

Honolulu, September 7.—(Special correspondence to The Record.)—Miss Ellen McConnell, of Daly City, Calif., arrived here today on the S. S. Matsonia.

The passengers joined in paying tribute to an old Honolulu custom by tossing coins to the Hawaiian diving boys as the ship entered the harbor. The arrivals also witnessed the leis ceremony, the Hawaiian custom of welcoming visitors by presenting them with flower wreaths. The natives, wearing ginger leis on their floppy hats, lined the dock as the steamer tied up, and the Hawaiian band played melodies of the Islands as the passenger landed.

The visitors who arrive in the Islands at this time of the year have an opportunity to see the famous hedges of night-blooming cereus, which are now in blossom.

WOMAN IS PINNED UNDERNEATH CAR

Miss Frances Donovan, a school teacher at the Burlingame high school, was seriously injured Sunday night when an automobile driven by her father overturned, she being pinned beneath the car. The accident occurred on the Skyline boulevard near San Bruno. Mr. Donovan, Mrs. Donovan and a sister of the school teacher were also injured. Miss Donovan's injuries are serious.

MOTHER OF SAN MATEO WOMAN KILLED IN CITY

Mrs. Belle Hayes, 66 years old, a widow, and mother of Mrs. A. D. McLellan of San Mateo, died from injuries received Sunday afternoon when she was run down while crossing the street in San Francisco, by an automobile truck driven by Thos. Hendry. Hendry took the injured woman to the hospital, where she succumbed from her injuries.

JAIL BREAKER IS CAPTURED IN OHIO

Sheriff T. C. McGovern reports that Maurice Allen, sought for several months, following his sensational escape from the San Mateo county jail at Redwood City, has been taken into custody at Columbus, Ohio, and will be returned to this county by the sheriff next week.

Accompanied by Archie Gosney, San Mateo, serving a term for bootlegging, Allen disappeared on the night of April 12, after picking three locks at the county jail.

The instruments used to gain their way to liberty were fashioned from bits of wire left by a plumber who had been called into the jail to repair water pipes. Concealing the pieces of metal in their cells, the two men fashioned them into fine hooks with which they succeeded in opening the locked doors of the jail and escaping through a side exit.

The search for Allen, one of six men arrested by Chief John J. Harper of Burlingame for burglary of a Burlingame store, has extended over the entire United States.

Allen had been returned from Folsom pending an appeal from his conviction three years ago on charges brought by the Burlingame police.

With the recapture of Allen he will be tried on a new charge of jail breaking, and will face a long term if convicted, it was stated at the office of Sheriff McGovern.

VETERANS BOOSTING FOR THE FARM AND HOME LOAN ACT

"It doesn't cost the taxpayers red cent!" California Legionnaires and their friends have adopted the above slogan of their campaign during the next few weeks to have the vote of the state adopt the \$20,000,000 veterans' farm and home loan act for the November ballot.

The act will provide the funds needed for a continuation of the work of the State Veterans' Bureau in paying the World war veterans on farm and in homes on a loan basis with cost to the people of California.

"The funds loaned to the veteran is repaid with interest, so that there is no cost to the taxpayers," says G. Ferguson of Los Angeles, chairman of the American Legion committee backing the act, stating that of the 2,400 veterans who have required property under the pre-war farm and home loan act passed the people in 1922, 2,377 men, women, who served in the World War, have replied to a questionnaire out by the Legion, stating that would have been unable to have chased either homes or farms without the assistance of the state.

ANOTHER REDWOOD GROVE RESERVED FOR POSTERITY

Another grove of California redwoods on the Redwood highway, miles north of San Francisco has been deeded to the State of California by Mrs. Kate Felton Neilson, of San Francisco, in memory of her late husband, United States Senator Charles N. Felton. The gift made through the Save-the-Redwood League to the State Forestry.

The tract, which is one of the beautiful groves in the vicinity of Yreaville-Bull Creek area, approximately 100 acres and seven million feet of redwood. It occupies a point of land in a picturesque bend in the Fork of the Eel river, an ideal for a memorial park. It lies on the river from Bolling Grove, memorial, dedicated recently to Colonel Raynal C. Bolling, American officer of high rank and fire in the World war.

This is the latest memorial to be purchased privately and donated to the state. Since its organization in 1918, the Save-the-Redwood League has preserved through a donation and gift more than 300 acres of primeval redwoods, representing a valuation of close to a million dollars.

Boosting for Bay Region Resolutions requesting that supervisors to appoint a conference with the war department on the type of a bridge across San Francisco were adopted Thursday night in San Francisco Building 10.

Father Ricard Predicts Father J. S. Ricard, of the University of Santa Clara, predicts a monthly weather forecast for the month of October. He predicts a rain and cloudiness in portions of the state.

CALIFORNIA NEWS BRIEFS

DOG PROTECTS BODY OF ITS DEAD MASTER

Yuba City, (Sutter Co.)—A dog's invariable faithfulness to his master was given added proof a short time ago when Deputy Coroner Hugh Price Jones was called to the Bogue section to take charge of the remains of Charles A. Bonham, bachelor farmer who had died unattended during the night. On approaching the cabin of the dead man, Jones was driven back several times by Bonham's dog, the animal gnashing his teeth and growing more defiant at each attempt on the part of Jones to reach the door. Finally a neighbor of Bonham was able to appease the dog sufficiently to permit entrance, but the dog went toward the bed snarling and took a defiant position over his master's body, which he retained until again appeased. Bonham's affection for the dog stood in the way of his seeking medical attention in San Francisco. He told a neighbor a week ago that before he could make a trip to San Francisco to visit a specialist he would have to kill the dog, as he was convinced the animal would not stay with any other human being.

A mining scene duplicating the old gold days of the San Andreas section can be witnessed these days on the pioneer Demerest property, seven miles east of San Andreas where John C. Benson has a crew at work washing rich gravel at the junction of Cherokee and San Domingo creeks. The earlyday miners found this ground rich, but were unable to attain depth at this particular point owing to the flow of water underground. Benson is handling the water with a gasoline-driven pump and is washing gravel daily in sluice boxes. As much as \$2.50 to the pan is being recovered, it is said.

An appropriation of \$150,000 for the purchase of a permanent encampment site and an increase of \$249,090 in the maintenance of the California National Guard are contained in a budget estimate submitted by Adjutant General R. E. Mittelsteadt to the state board of control for the next biennial period. The total amount asked for is \$915,000, as compared with \$615,000 allowed during the biennium ending in January. Mittelsteadt hopes to establish a small early allowance to enlisted men and seeks to have the strength of the national guard increased from 5,300 to 7,000 by 1928.

California may have a great sculpture of the future in Helen Turner, a year-old high school girl of San Andreas, Calaveras county, according to art experts who are enthusiastic examples of the girl's work on a tablet in Sacramento. Miss Turner's group "Gold Diggers of Calaveras," won high honors at the state art display and, despite the fact that she has never been given instruction in modeling, three of her other sculptures aroused such interest that they were taken to San Francisco to be in bronze.

The possibility of submitting a proposition to the voters for a near future to pay off indebtedness upon two of the city fire trucks in exchange for the city fire alarm system, is being considered by the board of trustees. It is probable that three separate propositions will be submitted. One is a proposal to issue bonds to \$25,000 to pay off indebtedness on two fire engines, another would be \$10,000 for the purchase of a fire truck and another \$7,000 for a fire truck.

Old San Luis Obispo Mission, founded in 1772, was broken into by a fire, who looted the altar and stole, taking several valuable pieces of faith, and maliciously destroyed a part of the old altar. A few gold chalices, a gift to Father Keenan, the pastor of the mission, at his ordination, the altar brass incense bowl and silver censers were taken. Keenan stated the chalices were approximately \$500, but would be of particular commercial value.

Men have begun pouring concrete over the creek bridge on the east side of Red Bluff. The bridge is rough, but passable, detouring the old creekbed and skirting the river has been open to north and south traffic in the past. The bridge will be completed before the fall rains fill the bed.

Out the memory of a marriage which led them into divorce 23 years ago, Austin P. Ford, 69, and Mrs. Ellen Ford, 65, who were remarried at Red Bluff, are now on their second marriage in northern California. They first married 39 years ago and lived together for 40 years.

A disused mine tunnel near Red Bluff was discovered to be literally infested with rattlesnakes by employees of the Gas and Electric company. The snakes were cleaned out by the discharging of dynamite. Several charges of dynamite were believed to be the cause of the score or more of the reptiles being driven into the air. The present another legislative measure to create a state department of mining in California was the conference of mining men in Sacramento under the auspices of the Chamber of Commerce.

The tax levy for Mendocino county was set this year by the supervisors at \$2.80.

Graveling will be done on the state highway near Colfax Springs, Tulare county, it is announced.

The total enrollment in the Watsonville high school this year is 723 as compared with 533 for 1925.

The Christian church, Healdsburg, will build a new structure at Fitch and Matheson streets to cost 25,000.

Ninety-five and the oldest man ever lodged in the city prison—such is the "honor" attained by John Wilson at Stockton.

There will be no regular county fair in Kings county this year, but one on a small scale is to be given in Lemoore, October 20 to 23.

The purchase of a permanent maintenance station site at the northern limits of Merced has been authorized by the California Highway commission.

Voters of Oroville, Butte county, may be asked to approve an annual appropriation for support of a municipal band at the city election next April.

The prune harvest is about two weeks earlier than usual in Tulare county this year. Damage from red spider has been negligible.

Approximately \$2,500 is to be expended by the Pacific Telephone and Telegraph company in increasing its telephone facilities in the city of Mt. Shasta.

The tax rate for Sebastopol for the year has been set by the board of trustees at \$1.60 on the \$100 assessed valuation of property, the same as last year.

The city trustees of Lincoln, Placer county, set October 5 as the date for the sale of \$30,000 bond issue voted for the purpose of additions to the sewer system.

William Durbrow was elected president of the Glenn county unit of the California Rice Growers association at a meeting of the Glenn county members at Willows.

Miss Clara Cowgill, Visalia, will begin her duties as home demonstration agent for Tulare county on October 1, and is in the county now preparing for her work.

Under the ownership and operation of the students of the Chico State Teachers' College, a book store handling new and second hand books and supplies has been opened.

The tax rate of Solano county the coming years will be increased 8 cents to provide a fund of \$200,000 to provide for the erection of seven American Legion buildings.

The supervisors of Humboldt county have commissioned architects to prepare plans for hospital buildings at Eureka to replace the structures destroyed by fire to cost \$300,000.

John F. Miller, in charge of the bureau of entomology at Stanford University, is in Susanville arranging tests in an endeavor to completely exterminate worms which are doing considerable damage to lumber and trees.

Workmen are engaged in the erection of a new mill upon the property of the No. 9 Mines near Morinitos, Mariposa county. Recent development work at this mine indicates that extensive bodies of milling ore have been blocked out.

Ben Santi, Merced dairy owner, has been notified that his exhibit of Pasteurized market milk at the state fair in Sacramento has been awarded first prize, a gold medal. The medal is the second won by Santi's dairy, having received a similar award two years ago.

Despite the flat refusal of the directors of Merced Irrigation district to adopt the one-man managerial plan of operation recommended by the Merced county farm bureau, the directors of the bureau passed a resolution supporting their irrigation and drainage committee, and delegated the committee full power to proceed with its plans.

The first step toward constructing a new disposal system at Truckee, for which bonds were recently voted, was made when S. G. Whittlesey, the engineer chosen by the new board to supervise and estimate the work, in company with State Sanitary Engineer Gillespie, went over the ground carefully to choose a proper place for the tanks.

Announcement is made by E. H. Maggard, president of the Petaluma and Santa Rosa Electric Railway, that plans have been completed for a reinforced concrete passenger station, depot and freight warehouse to be erected at Santa Rosa, to replace the present frame structures. The buildings will be of the mission type of architecture and will cost about \$35,000.

A movement to obtain a modification of the state primary election law with reference to a given candidate for office on more than one party ticket, has been started in northern California, according to word received in Sacramento and the central committees of both the Republican and Democratic parties in Tehama county are actively concerning themselves with the matter.

The San Joaquin valley probably has the most progressive and enterprising farmer of recent vintage in the west, one who thought he had "gone wrong" to a considerable extent in a grape-planting venture, went to Spain and found out what his failings were, and says now he is going to make enough of the information he gained in Europe to pay all the expenses of himself and family on the trip to Europe last year. B. F. List, mayor of Exeter and a prominent fruit grower and shipper of that Tulare county city, told the Hanford Kiwanis club about it in an address.

Chemicals May Alter Whole of the Present Scheme of Healing Science

By MAJOR L. L. SEAMAN, Army Surgeon.

WARS of the future may bring about the development of an entirely new medical science.

The development of chemical warfare constitutes a new enemy for the medical world to tackle. Soldiers' wounds in future wars probably will be of a nature little known today.

The greater knowledge of antiseptics is medical science's greatest stride in saving the lives of those brought down in battle.

Where raw carbolic acid, available on rare occasions, formerly was the best that medical science could use on mortifying gunshot and sword wounds, today a whole gamut of antiseptics can be brought to the aid of nature in keeping a wound clean.

Though wounds are worse now than formerly, they are in many ways more merciful. Unless a man is torn to pieces by the cruel new inventions of war and killed instantly, the newer knowledge of medical treatment may hope to save him.

Good rationing has cut down the deaths from preventable war-time diseases almost to nothing.

In the war with Spain, twenty American soldiers died of preventable diseases to one of wounds. It was a bloodless war, an opera bouffe, except for the hideous tragedy of these disease losses.

Today the body's need of the mysterious vitamins contained in different sort of food has been learned and the soldiers' greatest enemy in war time has been conquered.

Brotherly Love Only Real Cure for the Manifold Ills of the World

By DR. JOHN M'DOWELL, Presbyterian Mission Official.

The time has come to get rid of "industrial quacks" and to go directly to the greatest of all doctors on industrial ills, Jesus Christ. Industry has suffered almost as much as medicine from quacks—from "industrial doctors" treating symptoms and not disease.

Love, and only love, will make industry work together for good; nothing else will. Every form of industrial organization based on force or selfishness has failed. The law of sympathy, of consideration, of helpful love, should be the law of all human association.

When this principle of love is applied, slavery comes to an end, traffic in intoxicating liquors is stopped, child labor ceases, workers will not be underpaid, limitation of production will be lifted, industrial autocracy both in capital and labor will end, and self interest will be diverted.

Love will insist that a man's daily work shall be recognized as his divine calling; that adequate provision be made for the laborer when he is aged or otherwise unfit for work; and it will contend that the fruits of industry must be guaranteed alike to employer, employee and consumer.

Sovereignty of People Contingent Upon Upholding Majesty of Law

By FRANK O. LOWDEN, Ex-Governor of Illinois.

Successful self-government in the smallest political unit is the only guaranty of successful self-government in a great country such as the United States.

The duty of every political division, no matter how small, is to keep its house in order. In a republic the only majesty is the majesty of the law. Whenever a town permits the due and orderly processes of government to be interrupted by a mob that town is no longer an asset, but becomes a liability of the republic.

In every nation there must be some one or something supreme to whom or to which all must yield obedience. In an empire, it is an emperor. In a kingdom, it is the king. In a republic the only majesty is the majesty of the law. Whoever does violence to the law is laying profane hands upon the sovereignty of the people.

Let it be remembered, however, that every time outside force in any community is employed, it is a confession of weakness in the foundations, in fact, of our institutions.

Boys' Clubs One of Most Effective Weapons in War Against Crime

By WILLIAM EDWIN HALL, President Boys' Club Federation.

Crime cannot be cured by the enactment of new laws. The controlling cause of our present crime wave lies in the failure of our people to recognize that the piling up in cities of humanity in tenements and four-room houses without yards provides a menace to boys that must be met. Congestion has destroyed the play places of boys. Their spare-time energy has no outlet, especially in the after-supper period.

I hope that the business men of this country will begin to use the same principles that they apply if their manufactured products are coming through with flaws—namely, to see that the raw material is of the proper quality. The cure for crime lies in the raw material from which our citizenry is made. The boys' club as an agency to reduce crime pays rich dividends to the community.

The boys' club, where a boy may meet his gang every night in the gameroom, gymnasium, library and vocational classroom, play his way under trained supervision into good citizenship, is a real weapon with which to fight crime.

Mankind Constantly Engaged in the Process of Character Building

By PROF. C. JUDSON HERRICK, University of Chicago.

The brain of man has developed slowly out of the brain structure of lower animals.

I have traced this progression from the fishes and amphibians, through reptiles, birds and mammals. But somewhere in the history of primeval evolution an elaboration has taken place, leading to the facilitation of rapid learning and thinking.

There is no truth in the old theory that man is a puppet whose acts are foreordained from without his own personality. Man is engaged in character-building as a purposeful enterprise, and his own foreknowledge of probable future consequences of his actions is a strictly biological process in one of its aspects.

We have found place in our national system for purpose, imagination, appreciation, sentiment, ethics, religion, faith, hope and charity. I need these things in the serious business of living and I find pragmatically that in proportion as they are integrally woven into my life as a whole, this life develops in satisfying patterns.

THE AMERICAN LEGION

(Copy for this Department Supplied by the American Legion News Service.)

WINS FIRST LEGION FIDAC SCHOLARSHIP

A year's study in Poland is the prize that has been won by George R. Saxon, graduate of Howard college, Birmingham, Ala., and assistant boys' secretary of the Birmingham Y. M. C. A., as the crowning achievement of a long struggle for an education against heavy handicaps. Saxon has been chosen as the first American student to be sent abroad in an exchange of scholarships arranged by the American Legion through Fidac, the international organization of veterans' associations of the allied countries.

Saxon will attend the University of Warsaw, while John J. Tichey, a Polish student, will come to this country in exchange and will attend Columbia university. Funds for the two scholarships are being provided by the Kosciuszko foundation of New York, which was organized to honor Col. Thaddeus Kosciuszko, Polish patriot who served in the American Revolutionary army. Among the organizers of the foundation are a group of prominent Americans including Willis

George R. Saxon. John J. Tichey.

H. Booth, Samuel M. Vauclain, Col. Cedric E. Fauntleroy, Prof. Robert H. Lord, President Henry Noble MacCracken, Prof. Stephen P. Mizwa and Prof. Paul Monroe.

The record of Saxon's fight for an education is an inspiring story.

"I never remember having seen my father, who died when I was six months old," he said, telling of his life. "At sixteen I was only in the fifth grade of school. We lived in a rural district and I could attend school on the average of only 12 weeks each year. I realized that I could never get very far in the preparation for life at that rate, so, with the consent of my mother I went to a nearby village where there was a good grammar school.

"After I had finished grammar school I went to Albertville, Ala., where I operated a telephone exchange at night and went to school in the day time. I finished two years' work there and was beginning my third when I stopped to enter the army for the World War, which kept me out of school two years. I saved my money while in the service with the hope that some day I might not only finish high school but might go on to college.

"When I returned I finished high school and was awarded a scholarship by a newspaper which paid my expenses through Howard college.

"While in college I sold books in Kentucky and West Virginia one summer and the others I worked for the Central Young Men's Christian association of Birmingham. After my graduation in the spring of 1925 I became a member of the staff there."

Saxon served in the One Hundred and Seventh field artillery, Thirty-first division, and saw service in France. In college he had high scholastic standing and an unusual record of leadership in athletics and student affairs. He plans to continue his Y. M. C. A. work when he returns from Poland.

N. Carolina Auxiliary Spends \$20,000 in Year

The American Legion Auxiliary of North Carolina, aided by the Legion Auxiliaries of other states, collected and spent more than \$20,000 during the last year for the welfare of disabled World War veterans being treated at the United States Veterans' Bureau hospital at Oteen, N. C., according to a report to the North Carolina Auxiliary convention. The Auxiliary of Pennsylvania contributed \$4,000 to the fund.

Depict Woman's Sacrifice

Some of the finest mural paintings of a World War subject ever painted will be placed on the walls of the state capitol building at Oklahoma City, Okla., by the American Legion, department of Oklahoma, Department Adjutant Harold Janeway announced recently. The subject of the panels will be woman's sacrifice of her sons for the nation.

Honor Heroes

As an encouragement to men in the public service, New Rochelle post of the American Legion of New Rochelle, N. Y., recently gave two medals to be awarded to the policeman and fireman of the city who performs the most conspicuous act over and above the line of duty during the year.

Max Carey and Manager Robinson

Within a week following his dismissal from the Pirates, Max Carey, in uniform above, was signed by Wilbert Robinson (also above) to play at his old salary, \$16,500 per annum, and was immediately assigned to center field for the Robins. Robbie may decide to quit the managerial role after this year and who would be a better choice than Carey?

Giants Get Southpaw

Edward Kallina, star southpaw pitcher with the Bloomington (Ill.) team of the Three-Eye league, has been sold to the New York Giants for \$4,000. Kallina was picked up two years ago by Bloomington, while he was a student at the University of Illinois.

McManus Is Handy Player

Marty McManus, star infielder of the St. Louis Browns, has missed comparatively few games during the last four seasons. In three, in fact, he played every one of the 154 tilts. That was in 1922, 1923 and 1925. In 1924 injuries kept Marty out of the lineup for a spell. McManus' best season thus far was in 1924 when he hit .333, lashing out 147 hits in 442 trips. McManus is a handy fellow to have on a ball club. Besides being a stout clubber, he is a capable and versatile fielder.

Sport Notes

As we figure it out, Suzanne Lenglen will cease playing tennis and start working it.

How do those who lament the disappearance of individuality in a democracy explain golf socks?

This looks like another hard season for the fellow who keeps the books in the swimming record headquarters.

Altruism is that magnanimous quality which moves a couple of dub golfers to concede one another 18-foot putts.

It is estimated that a fairly large number of amateur athletes in various lines would turn professional, if they could afford to.

A business man is so absent-minded that in his rush to get away from the office recently he started to sign a letter with a niblick.

Terrapin racing has become a popular sport in Oklahoma, several hundred turtles being entered in the annual "Kentucky derby" held at Ponca City.

Sport query: Vehicles in England keep to the left; in France, to the right. Supposing two swimmers meet in mid-channel: Do they pass one another to port or starboard?

Before his memorable fight with Bob Fitzsimmons back in the nineties, Peter Maher knew that he was going to lose when a beam of light formed a cross on the wall in his training room.

Yachting in American waters dates from 1614, when the first decked vessel was built on Manhattan island by the early Dutch settlers. The sport goes back ten years earlier in England with the construction of a pleasure craft for Henry, prince of Wales.

SMITH'S PUTTER DOES GOOD WORK

Pro's Success Due to Caution and Accuracy.

McDonald Smith, one of the great est stylists and shotmakers in professional golf, has a "stop-look-and-listen" method of putting, but it usually gets results. "Mac" takes the utmost of his native Scotch caution with every stroke on the greens, examining contours, feeling the resiliency of the sod, sighting his ball fore and aft, then making a final tour of inspection to eliminate all stray obstacles, no matter how minute.

An excellent illustration of the effectiveness of his putting methods was furnished by Smith in carrying off the Metropolitan open golf title in a third play-off round with Gene Sarazen. Sarazen, the defending champion, shot a 70, and was three under par with a card good enough to win nine out of ten matches. But Smith's uncanny work on the greens gave him a record-breaking 68 and the crown. Mac's magic wand was an aluminum putter of the Schenectady type and with it he was finding the hole from distances of 40 feet as easily as he did from four.

In the catalogue of golf's outstanding scoring feats of 1926, Smith's 68 at Salisbury and his average of 74.47 for the seven rounds necessary to decide the Metropolitan tournament are ranked by critics on the same plane with Bobby Jones' 134 in the British open qualifying play, and Walter Hagen's record-breaking 132 for the first two rounds of the Eastern Open championship.

Carey Remains One of Most Remarkable Stars

Max Carey, Pittsburgh's veteran out fielder, continues to remain one of baseball's most remarkable products, comments Grantland Rice in the New York Herald-Tribune. Wagner and Lajoie retained the glint in their batting eyes for over 20 years. Cobb still can hit with the best. Pop Anson was a great hitter for 23 years.

But none of these was ever able to hold the speed of youth. The batting eye remains longer than any other adjunct. Speed is the thing first to fade.

Carey, after 16 campaigns, is as fast as ever. He was the best base runner in the game last year and one of the fastest. He can still step with any of the young speed stars and his value to the club never has been quite appreciated by the outside public.

Carey belongs to the period which turned out Cobb, Collins, Speaker and Johnson, although he came on just a little later. But he was among that great group which emerged between 1905 and 1910, which also gave baseball Stuffy McInnis, Zach Wheat, Frank Baker and a few more who went a long, long way. Collins, Speaker and Cobb can still step around, but not with the lean-waisted Pirate, who can manage to steal fifty or sixty bases a year, if not hampered by the flu.

Pop Warner Dopes

Photograph shows "Pop" Warner, coach of Stanford university, California, who spent his summer at Springfield, N. Y., doping out plays for coming football season between rounds of golf.

First Curve Ball Ever Pitched Amazed Batters

Candy Cummings, of the old Stars of Brooklyn, is credited with being the first pitcher to release a curve. However, Joseph M. Mann, of Princeton, really did as much as Cummings, probably more, to popularize what was then a "freak" ball.

Mann was the first to accomplish a no-hit game, and it was largely through the use of curves that he earned this distinction. Mann, pitching for Princeton, shut out Yale at New Haven, May 29, 1875. So astonished were the Yale players at Mann's ability to curve a ball that they gathered round the plate as the Princeton star fanned out the Eli batters.

George Wright, of the old Cincinnati Red Stockings, pulled the first double play. It was in a game against the Atlantics, of Brooklyn, played on Long Island. In the tenth inning, with a man on first and second, the batter popped a fly to Wright at short.

Instead of catching it, as the runners anticipated, Wright "trapped" the ball by scooping it on the first bound. He then threw it to third, and that baseman, alive to the situation, shot it to second. Two runners were out, and the first double play had been performed.

FOXES AND WOLVES

"We never waste any time, we never do," said one of the foxes from his den in the zoo.

"Neither do we," said one of the wolves. "I know what you are thinking about."

"Do you?" asked the fox. "Tell me then, if you can, what I am thinking about."

"You're thinking about creatures who sleep for the winter through, aren't you?" asked the wolf.

"I am," said the fox. "It was bright of you to guess."

"Well, I was thinking of the same thing," said the wolf.

"And then you said that you never wasted any time—meaning your family."

"Then I put my thoughts and your words together—I did that quite easily—and so I thought I knew what you meant."

"Well, you did," said the fox. "I agree with you," said the wolf, "for I don't believe in wasting time."

"Neither do any of the members of my family."

"There are some creatures who don't go to sleep for the winter here in the zoo, but they would if they were free."

"Do You?" Asked the Fox.

Now we never go to sleep for the winter—in the zoo or out of it."

"Neither do we," said the fox. "We don't want to miss anything that may be going on," said the wolf.

"The very same way we feel about it," said the fox.

"We're wide-awake wolves, we are," said the wolf.

"And we're the wide-awake foxes, we are," said the fox.

So the fox and the wolf and the other foxes and other wolves talked of how foolish creatures were who slept during the whole winter, for they only took regular naps and didn't sleep great long "sleeps" whether free or in the zoo.

And they told stories of the adventures they had had in the winter and of how they would have missed these adventures and excitements if they had been asleep.

They talked, too, of wonderful hunting parties they had had and of their luck—so much of which would have been missed, quite naturally, if they had been asleep.

So the foxes and the wolves decided they were very, very sensible.

And they sent this Zoolet to the Zoolet society, which received verses by the animals about themselves.

This was their Zoolet:

We sleep enough,
But not too much.
We wouldn't sleep
The winter through
For anything
That you might do
For us or for our friends.

We do the same
When we are free
As we do here
Right in the zoo:
The Wolves and
The Foxes, too,
Both families think the same.

TEST YOUR GUESSER

What is the difference between an oak tree and a leopard's tail?
One is rooted to the spot, and the other is spotted to the root.

Why did the Scotsman smash the bottle?
Because he wanted to see glass go (Glasgow).

Which bus went the longest journey?
Columbus.

What is it that is full of knowledge, and yet knows nothing?
A bookcase.

Why did the farmer call his rooster Robinson?—Because it Crusoe.

Why is a horse an amiable creature?
Because it can stand a lot of chaff.

What kind of tea does a prisoner most long for?
Liberty (tea).

Why is it useless to give a chicken a quart of corn for its dinner?
Because it takes it by the peck.

What benefit can be derived from a paper of pins? It will give you a lot of good points.

Grandma Has Grown
Billy, four years old, was on the way to visit his grandmother, whom he had not seen for more than a year and he said, "I'll bet Grandma has grown so I won't know her."

DID HIS BEST

"Did you struggle against the consequences of temptation?" asked the prison chaplain.

"Yes, I did," replied the convict. "Ah, but you should have fought a little harder and you would not be here now!"

"I done the best I could, mister. It took seven policemen to get me to the station."

Doctor Takes Life Easy

Two friends met in the street one morning and stopped to have a chat. In the course of conversation one said to the other:

"By the way, dear, how do you like your new doctor?"

"Oh, he's a perfectly charming man," replied the other; "always so cheerful and good-tempered. He takes life so easily!"

WHAT NEW WAIL?

Farmer—Yes, I can't say we haven't had a big harvest this season.
City Man—What'll be the ruin of you this year, do you think?

The Discouraging Old-Timers
I struggle to express my mind
Enriching human wisdom's store.
But everything I think I find
Has been much better think of yore!

Joke on His Wife
"Our new kitchenette is just large enough for one to work in," remarked Shrimply.

"Joke on your wife at dish-washing time, eh?" asked his friend.

"No-o-o. But then I don't mind drying them, too, while I'm at it!"—American Legion Weekly.

Stale News
Percy (beaming)—Oh, I have the most glorious news!
Ester (his cousin)—What is it?
"Peggy has promised to be my wife!"

"So that's what you call news! A month ago she asked me to be her bridesmaid."

Pa Makes a Guess
"Pa," said Clarence, "what does re-ramped mean?"

"Falling for the stunning blond a second time after you have been burnt once, I guess. Now shut up and get to your night work."

BETWEEN TWO EVILS

First Egg—What's the trouble?
Second Egg—Alas, I'll either be poached or put into cold storage!

A Rare Lass
A girl I like
Is Nelly Bly;
The lass can bake
Good cherry pie.

Pockets Much Lighter
Mr. and Mrs. Smith were down town shopping.

"Aren't all those packages heavy for you?" she asked.

"Oh, no," he replied; "you see, my pockets are so much lighter."

A Bust, Anyway
Father—You kept the car out rather late last night, son. What delayed you?
Son—Had a blowout, dad.

Father—Huh! Tire or roadhouse?

Remarkable Orator
"He thinks he is a remarkable orator." "Well, in a way, he is. It certainly shows some genius to be able to take three hours to say blah!—and that's all he ever says."—Cincinnati Enquirer.

Success
"I wish we could get young Lighter to put his heart into his work."

"Have you heard him dictating to the new stenographer?"—Princeton Tiger.

FEELING LOTS BETTER NOW

Writes Ethel May Snider Who Used Lydia E. Pinkham's Vegetable Compound

Hartford City, Ind.—Doing housework and taking care of a sick woman proved to be too much for Ethel May Snider, R. R. 1 of Hartford City, until she started taking Lydia E. Pinkham's Vegetable Compound.

Overwork had so undermined her health that she had to give up all outside work, and when she saw this medicine advertised in the "Star" and other papers, she went to drugist and got a bottle of Lydia E. Pinkham's Vegetable Compound. She took it regularly, was greatly benefited and now feels very much better.

Ethel May Snider's experience is similar to that of thousands of other women in all walks of life, who have sent testimonials to the Lydia E. Pinkham Medicine Company of Lynn, Mass.

Among those who praise the Compound are young girls who have been enabled to attend school regularly—working girls who have gained strength and endurance so necessary to them, housewives and mothers who have found that the tonic-effect of the Compound has enabled them to perform their daily tasks more easily.

Lydia E. Pinkham's Vegetable Compound is sold by all druggists and health food stores. Write for free sample and full particulars to Lydia E. Pinkham Medicine Company, Lynn, Mass.

WILL SHOOT TO KILL

Exasperated by continued mail robberies, Postmaster General New has more effectively armed his 22,500 railway mail clerks, and ordered them to shoot to kill.

The decision to adopt drastic measures came after a check-up revealed that fourteen major mail robberies during the last fiscal year had caused the loss of \$1,408,540, of which about one-half has been recovered. A recent \$135,000 robbery near Chicago was the immediate cause of the new order.

It will be recalled that the time of the prevalence of mail robberies in 1921, United States Marines were detailed to duty in guarding the mails for several months. Should the postal clerks be unable to cope with the situation, it is intimated that the Marines will be called into action once more.

Long penitentiary sentences have been meted out to sixty-five convicted mail robbers in the past two years, but the criminal element appears to be undeterred by this fact. The only protection which may be afforded the mails appears to be through making every mail car a fort, manned by brave men with orders to shoot to kill. That is just what the post office department means to do.

Next Sunday "The Splendid Crime," featuring Bebe Daniels, will be presented at the State Theatre. It is a sparkling story of a spendthrift millionaire and a female raffles.

LUCKY MUSSOLINI

Another unsuccessful attempt to assassinate Premier Benito Mussolini of Italy, the third within a year, has confirmed the belief of superstitious followers that he bears a charmed life.

A bomb thrown by a young anarchist struck Mussolini's automobile, but fell to the ground before it exploded, breaking glass windows of the car and slightly injuring four. The premier was untouched. His would-be assassin was arrested.

Regardless of one's opinion of Mussolini's policies and methods, there is much about this former hod-carrier who became a dictator which compels admiration.

On September 3, 1902, Mussolini wrote to a friend: "I found work and began, eleven hours a day. I made 121 journeys with a hand-barrow full of stones up to the second floor of a building. In the evening the muscles of my arms were swollen. I ate some potatoes roasted on cinders, and threw myself in all my clothes onto my bed, a pile of straw."

Twenty years later this manual laborer was master of all Italy, as he is today. Mussolini has been lucky, but it took something more than luck to enable him to make a jump like that.

BEHOLD THE CRIMINAL

Recently, so the story runs in the publication "Safeguarding America Against Fire," while a forest fire raged about his house, a youth of Egg Harbor, New Jersey, sat in a rocking chair and played his ukelele, watching the blaze. Commanded by the mayor to assist the fire fighters, the boy only laughed, observed that fire fighting was not his business, and kept on strumming his instrument. He was arrested and fined \$10 for disorderly conduct.

Suppose, says the Insurance Field, he had been a merchant, manufacturer or tenant permitting trash accumulations and other fire hazards, capable at any moment of setting off a great conflagration in a city—how much disorder could he be accused of?

Most persons can make up a splendid list of best books they have never read.

GAS WAR OF THE FUTURE

It is evident that chemistry will play an important part in any future war. Any program of national preparedness which does not provide an adequate means for meeting gas attacks and other forms of chemical warfare is sadly deficient in a branch of military activity which may prove of vital importance.

And inasmuch as the best defense is a vigorous offensive, our forces should be prepared to carry the fight into the enemy's camp.

While the use of poisonous gases is banned by the nations who were parties to the arms reduction conference held in 1922, similar agreements were in effect before the World war, yet they did not prevent the employment of these destructive agencies when the urge of necessity came. As a matter of fact, all the leading nations are today busy with the development of chemical war equipment, regardless of their pledge not to use it.

Dr. James F. Norris, president of the American Chemical Society, recently sounded a note of warning on this subject when he said: "When the final pressure comes, a nation will use any means available to save its life." He urged that our army be permitted to study and develop the means of chemical warfare, with adequate appropriations for the purpose, as other armies are doing.

Of course, we do not want to see another war. We did not want to see the last one. But another war may come—is almost certain to come, sooner or later. We should make reasonable preparations to meet any emergency by developing every branch of modern warfare. To fail in this would be to invite disaster, should war unhappily be forced upon us.

INSULTS TO OUR DEAD

There came a story to America recently that no one likes to believe. If it had been brought by an irresponsible individual it might have attracted little attention, but it was told by a member of the United States Senate, who would hardly have told it if he had not known it to be true.

Upon his return from a European trip a short time ago, Senator Caraway of Arkansas told the Washington Post that he was in favor of bringing back to America the bodies of American soldiers now buried in France, "because insults have been written on the little white crosses over their graves."

Senator Caraway also declared that France "undoubtedly loves the German more that he does the American and Englishman, and carrying on a campaign against her former friends is the principal occupation of her statesmen."

Even making allowance for the Senator's strong political prejudices, his statements must be considered in some degree as confirmatory of the many reports of French hatred for the United States which has developed over the war debt question.

But that her hatred should take such a hideous form of expression as that of writing insulting inscriptions over the graves of our dead is incomprehensible. Of course, such acts would never be perpetrated by any except the most vicious element, yet the fact that they should be perpetrated at all is proof that the enmity felt in France toward us is as intense as it is unjust.

Mrs. Susan Bevan, who was legally declared dead four years ago, is held for trial in London on the charge of defrauding a life insurance company.

ENGINEER DECLARES CALIFORNIA LEADS IN QUALITY OF ROADS

After an automobile trip extending over 10,000 miles from California to the Atlantic coast and return, including its itinerary twenty-four states, E. E. East, chief engineer for the Automobile Club of Southern California, has returned convinced that California is still leading the nation in road building. This is particularly true, Mr. East emphasizes in his report, as regards riding qualities of pavements and the safety features which are now being embodied in the design and construction of State highways.

East said he was surprised to find on some of the principle transcontinental roads in the East grades that required second gear over long distances; sharp blind curves and innumerable sharp, vertical curves which completely obstruct the view of approaching vehicles—construction which would not be countenanced in California.

Bridge construction in many states, he says, is far below the standards of this state. Only on grade separations are the eastern states apparently making faster progress than is California, which, of course, is due here largely to the lack of funds.

Quality, in recent years, has been the watchword of construction in California; standards of alignment and grade have been increased far beyond the plans of engineers a few years back; new pavements have a minimum width of twenty feet and vary in thickness from six to nine inches at the edges, with special reinforcing where necessary.

Width and strength of bridges also has been increased with the increasing standards of other features of the highway.

AID OF PUBLIC IN PUNCTURE VINE FIGHT IS WELCOMED

The motoring public can materially aid in the campaign of the highway commission and the various counties for the eradication of puncture vine along the highway right of way and such aid will be welcomed, it is announced by State Highway Engineer R. M. Morton.

Maintenance forces are continually co-operating with county horticultural commissioners, and considerable sums have been expended in an effort to rid the highways of the pest, the spread of which is fraught with so much danger to agriculture.

Motorists who observe patches of the weed growing along the highway are urged to give the information to the local maintenance foreman, who has instructions to destroy the pest wherever found. The name and address of the foreman will be found on maintenance section markers posted along the highway at boundaries of the sections. The information also may be forwarded through the automobile clubs or chambers of commerce. The location should be described as specifically as possible.

SHOWS UPWARD TREND IN AUTO REGISTRATION

The comparative report for the month of August, 1924, with that month last year just compiled by the Division of Motor Vehicles indicates a consistent upward trend in the registration of automobiles in California.

The record shows that 22,422 automobiles were registered this year against 21,367 for the same period last year, with receipts at \$72,126.25 against \$69,110.45 for 1923. The greatest increase, however, is shown in transfers recorded in the department, there being 60,650 filed this year against 54,877 last. The revenue from all sources amounts to \$182,622.25 this year against \$177,237.60 the same month last.

Scotland Yard detectives have so far failed to catch a mysterious bob-haired bandit, but they have shrewdly guessed that she "has taken up her present life to kill the memory of some unhappy love affair." If that helps any.

Telephone lines carry fifty billion words of conversation daily, most of which might probably come under the head of useless noises.

CERTIFICATE OF INDIVIDUAL TRANSACTING BUSINESS UNDER A FICTITIOUS NAME OR NAMES.

This is to certify that I, CLIFFORD J. PETTIGREW, am transacting business in the State of California under the firm names and style of C. J. PETTIGREW, DALY CITY GARAGE, NEW DALY CITY GARAGE, and PENINSULA TOW CO.

That the principal place of business of each of said firms is situated in the City of Daly City, County of San Mateo, State of California, and the name of the owner and proprietor thereof is as follows, to-wit:

CLIFFORD J. PETTIGREW, residing in Daly City, County and State aforesaid.

On this 29th day of September, in the year one thousand nine hundred and twenty-six, before me, Ellis C. Johnson, a Notary Public, in and for the County of San Mateo, personally appeared Clifford J. Pettigrew, known to me to be the person whose name is subscribed to the within instrument, and he duly acknowledged to me that he executed the same.

In witness whereof, I have hereunto set my hand and affixed my official Seal, at my office in the County of San Mateo, the day and year in his certificate first above written.

(SEAL) ELLIS C. JOHNSON, Notary Public in and for the County of San Mateo, State of California. My Commission Expires February 5th, 1927.

First publication in Daly City Record, October 1, 1926.

10-1-10-29-1926

French scientists have discovered that certain butterflies live longer without heads. Some humans live long without anything in their heads.

Everything we have is taxed, even our credulity.

In spite of her internal troubles, Mexico is making progress toward civilization. Dancing the Charleston in public places has been forbidden.

Lillian Cannon will take another shot at the Charnel next year.

Colma News Notes

By SYLVIA FISCHER

Sylvio Landini is sporting a handsome new Nash coupe.

Mr. and Mrs. Jamse Malervi have moved into the Ailers' home.

Edna Stewart motored to Santa Cruz last Sunday with a party of friends.

Miss Margaret MacDonald and Philip Dellar motored to Rockaway Beach last Sunday.

Miss Anita Varni, of Price street, is now employed in the local branch of the Bank of Italy.

Mrs. E. Lagomarsino is enjoying two weeks vacation from her duties at the New Colma Theatre.

Mr. and Mrs. MacDonald and son have returned from Los Angeles, where they spent several weeks.

William Sweeney, Jr., who had his foot injured in a football game at the local high school, is recovering nicely.

George Lagomarsino, who recently had his ankle broken, is making excellent progress on the road to recovery.

Mrs. B. W. Haubrich and Mrs. Stephen Fischer returned home Monday from Capitola by the Sea, where they spent several days.

Mr. and Mrs. Stephen Fischer, of Castle Street, and Bert Butler, of South San Francisco, rode horseback to Ingleside Beach one day last week.

Pete Benassini is driving a handsome new Chrysler sedan.

Mrs. George Raven, who was ill for several days, is improving.

Otto Hanson of the Guadalupe Dairy was a Colma visitor on Monday of this week.

Stephen Fischer spent the week end at the home of his brother John Fischer, of Pittsburg.

Miss Elsie Forsell, who underwent an operation at the Franklin hospital, is rapidly recovering.

Mr. and Mrs. Earle Jones, of First avenue, spent last Sunday at Brighton Beach with a party of friends.

Mr. and Mrs. Carl Jones, of San Francisco, recently visited Mr. and Mrs. Earle Jones of First avenue.

Mrs. B. W. Haubrich and Mrs. Stephen Fischer visited Mrs. George Martinelli, of San Francisco, last Tuesday.

Don't forget the big whist party to be given by El Carmelo Parlor in October for the benefit of the homeless children.

Miss Mary Rudolphus recently became the bride of Mr. Toole. The young couple are residing in Colma with Mrs. Rudolphus.

A meeting of El Carmelo Parlor No. 181, Native Daughters of the Golden West, will be held in Masonic Hall, Daly City, on Wednesday evening of next week.

A beautiful floor lamp is to be disposed of by the Colma Community Center to raise funds for the annual Christmas tree which is held for the children of the community.

The drill team of El Carmelo Parlor No. 181, Native Daughters of the Golden West, will meet in the Daly City Auditorium on Friday evening, under Drill Master Fred Collins.

A novelty cabaret dance will be given in the Colombo Auditorium on Saturday evening, October 23, for the benefit of the Colma Community Center. Don't miss this good time.

Through an error in an article recently published in the Record regarding the winning of first place by El Carmelo drill team, the names of the following members were unintentionally omitted: Marge O'Connor, Sarah Battaini, Thelma Selmi, and Louise Segale and Drill Master Fred Collins.

Mrs. Clyde Waite entertained a number of friends at luncheon at her beautiful new home in the Crocker Tract last Thursday. Among the guests were Mrs. Earle Jones, Mrs. Jack Callan, Mrs. Matt Grady and Mrs. Archie Lowans.

Miss Grace Johnston and Mrs. Lorraine Wall entertained the members of La Fiesta Social Club at the beautiful new home of Mrs. Wall in the Crocker Tract last Friday evening. A pleasant evening of games and songs was enjoyed until a late hour, when a delicious spread was enjoyed by the following: Thelma Selmi, Florence McKendrick, Louise Segale, Sylvia Fischer, Lorraine Wall, Margie O'Connor, Grace Johnston, Tessie O'Connor, Elsie Fahey, Margaret Varni and Ruby O'Connor.

On Monday, October 4, the State Theatre will present Bert Lytell and Irene Rich in "Lady Windermere's Fan," a picture which has received the commendation of the movie fans in every corner of the globe. The members of the fair sex who delight in pretty gowns will have an opportunity of seeing a bewildering array of gowns, shown by Miss Rich, who has always worn clothes well.

MANY CONVENTIONS TO BE HELD DURING OCTOBER

Ten conventions will be in session in San Francisco during the period of the All Western Road Show to be held here from October 7 to October 15, according to Tracy W. Harren, chairman of the arrangements committee.

The combined gathering will be the largest conclave to be held in San Francisco this year, with more than 10,000 persons in attendance. Participating in the show will be leading manufacturing and distribution concerns of eleven western states. The All Western Road Show is held in conjunction with conventions of contracting, state and county officials, engineering rock producing and good roads organizations in the Pacific Coast, Pacific Northwest and Rocky Mountain states.

Hundred of pretty girls who are identified with the industries sponsoring the show will assist in the exhibit booths, and information headquarters. Among the pretty young ladies who will participate in the show will be Miss Billie Wallace and Miss Mildred Worth.

The importance of the show to San Francisco was pointed out by Chairman Harren, who stated that last year's show provided for over 5000 western buyers and users of construction equipment their first opportunity to view the most modern designs and engineering in road building machinery and practice.

NUMBER PLATES FOR 1927

Assignments sheets for the issuance of number plates for 1927 just compiled by the Division of Motor Vehicles, according to Will H. March, chief of the division, show an estimate of 1,725,000 vehicles as the probable registration for the year. Automobile plates for the forthcoming renewal season are now being manufactured by the Kittle Manufacturing Company in Los Angeles, at the rate of 12,000 pairs per day. The plates will be the same size as last year but will carry the full numerals instead of symbols for numbers over one million as heretofore. There will be a segregation of exempt plates into state, county and city classifications, the state carrying the "Diamond E," county the "Oval E," and the city the "Square E."

NOTICE TO CREDITORS

No. 3856.

In the Superior Court of the State of California, in and for the County of San Mateo.

In the Matter of the Estate of LOUIS LAGOMARSINO, Deceased.

Notice is hereby given by the undersigned ALICE LAGOMARSINO, executrix of the last will and testament of LOUIS LAGOMARSINO, deceased, to the creditors and all persons having claims against the said deceased, to file them with the necessary vouchers, in the office of the Clerk of the Superior Court of the State of California, in and for the County of San Mateo, or to exhibit the same with the necessary vouchers, within ten (10) months after the first publication of this notice, to the said executrix at the law offices of J. E. McCurdy, Esq., Wisconsin Building, San Mateo, California, the same being the place for the transaction of the business of said estate.

Dated this 15th day of September, 1926.

ALICE LAGOMARSINO, Executrix.

J. E. McCurdy, said Executrix.

First publication in the Daly City Record, October 1, 1926.

William S. Heart in "Tumbleweeds," will be the feature at the State Theatre this Saturday, October 2. Also the Hertz Kiddies and other features, including "Into the Net," a fascinating serial.

Shrewd people never sign a document before reading it, and seldom sign it afterward.

An editor refers to a candidate as a "flaming wet." Probably set on fire by the stuff.

There has been an increase of about 730 per cent in the number of telephones in the city of Minneapolis during the last 20 years.

NOTICE OF TRUSTEES' SALE OF REAL PROPERTY

WHEREAS, B. H. STEVENS and DORIS J. STEVENS, his wife, as grantors, did execute their deed of trust dated the 7th day of March, 1923, to HERMAN DIECKMANN and D. A. STEINBAUGH, as trustees, for the benefit of the BAY VIEW BUILDING & LOAN ASSOCIATION, a corporation, and the holder of the promissory note of said grantors, in and to said association, in the sum of three thousand dollars (\$3000), secured by said deed of trust, which said deed of trust conveyed to said trustees the real property hereinafter described, and was recorded in Volume 65 of Official Records at page 455, in the office of the County Recorder of the County of San Mateo, State of California, on March 16th, 1923; and

WHEREAS, default has been made by said grantors in the payment of the said promissory note and the debts and obligations and interest thereon, secured by said deed of trust, and said BAY VIEW BUILDING & LOAN ASSOCIATION did heretofore demand of said trustees forthwith to proceed to sell the land described in said deed of trust and hereinafter described, in the manner and pursuant to the terms of said deed of trust and to execute the said deed of trust created; and

WHEREAS, the said BAY VIEW BUILDING & LOAN ASSOCIATION did heretofore pursuant to the statute heretofore made and provided, and on the 22nd day of June, 1926, record its notice of default and election to sell said property, in Volume 233 of Official Records at page 497, in the office of the County Recorder of the County of San Mateo, State of California, on March 16th, 1923; and

WHEREAS, pursuant to the provisions and covenants contained in said deed of trust, the said BAY VIEW BUILDING & LOAN ASSOCIATION did by resolution duly adopted heretofore, appoint ALFRED BOTHE, as such trustee, to execute the trusts created by said deed of trust, and the said D. A. STEINBAUGH, did by an instrument in writing convey heretofore to said ALFRED BOTHE, all the title, powers, interests, duties and trusts in the premises vested in or conferred upon said D. A. STEINBAUGH as such trustee by said deed of trust, and said conveyance so made and executed by said ALFRED BOTHE, to said D. A. STEINBAUGH, together with a copy of such resolution of the said corporation, certified by the secretary of said corporation, under its corporate seal, and attached to said instrument of assignment, conveyance and transfer, was heretofore, on the 21st day of December, 1923, duly recorded in the office of the County Recorder of San Mateo County, in Volume 96 of Official Records, at page 378, reference to which is hereby made; and whereas, the said ALFRED BOTHE, by virtue thereof is the successor and assign and substituted trustee in place and stead of said D. A. STEINBAUGH.

NOW, therefore, pursuant to the said demand and in accordance with the terms and under the authority of said deed of trust, the said ALFRED BOTHE, as such trustee, hereby gives notice that on Tuesday, the 15th day of October, 1926, at the front of 10 A. M. of said day, he will sell at public auction to the highest bidder for cash, in gold coin of the United States of America, the hereinafter described property, or such part thereof as they shall deem necessary to sell in order to accomplish the objects of the trusts in said deed of trust provided, that the property hereinafter referred to and which will be so offered for sale is the following, to-wit:

The piece or parcel of land situated in the County of San Mateo, State of California, more particularly described as follows: to-wit:

The southeasterly 20 feet of Lot 20 and the northwesterly 15 feet of Lot 21, in Block 6 as designated on the map entitled "Plat of the Diamond Tract, Bay Shore District, Visitation Valley," which map was filed in the office of the County Recorder of the County of San Mateo, State of California, on April 4, 1910, in Volume 7 of Maps, page 15.

Together with the improvements thereon.

All bids and payments for said property shall be made in gold coin of the United States of America at the time of said sale.

Dated at the City and County of San Francisco, State of California, September 21, 1926.

HERMAN DIECKMANN, ALFRED BOTHE, Trustees.

(1st pub. Sept. 24, 1926.)

PROBATE NOTICE TO CREDITORS

NUMBER 3991

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

In the Matter of the Estate of MARCO RANCATORE, also known as M. Rancatore, Deceased.

Notice is hereby given by the undersigned Administratrix of the estate of Marco Rancatore, said deceased, to the creditors of said deceased, to file them with the necessary vouchers, in the office of the Clerk of the Superior Court of the State of California, in and for the County of San Mateo, or to exhibit the same with the necessary vouchers, within ten (10) months after the first publication of this notice, to the said Administratrix at her residence, 719 Flood Building, San Francisco, Avenue, Daly City, County of San Mateo, State of California, the same being the place for the transaction of the business of said estate in the County of San Mateo, State of California.

Dated this 20th day of September, A. D. 1926.

JOHN G. ALIOTO, Attorney for Administratrix, Minnie L. Rancatore.

(1st pub. in Daly City Record, Sept. 24, 1926.)

NOTICE OF INTENTION

TO PURCHASE REAL ESTATE BY BOARD OF SUPERVISORS

BOARD OF SUPERVISORS, COUNTY OF SAN MATEO, CALIFORNIA.

NOTICE IS HEREBY GIVEN THAT the Board of Supervisors of the County of San Mateo, State of California, intend to purchase certain real estate property described as:

Lot 8, Block 21, City Extension Homestead Association, as the same appears on a map which was filed in June, 1870, in Book "D" of Maps at page 44.

The price to be made from Felix Bortis of Colma.

Said board will meet to consummate said purchase on the 11th day of October, at the hour of ten o'clock A. M. in 1926, at the hour of ten o'clock A. M. in the Court of the County of San Mateo, State of California, at Redwood City, California.

By order of said board.

ELIZABETH M. KNEESE, Clerk, San Mateo County, and ex-officio Clerk of said Board of Supervisors of said County.

On Wednesday, October 6, the State Theatre will present Adolph Menjou in "The King on Main Street," one of the best vehicles for displaying the talents of this popular actor. On this bill will also appear the usual riot of fun and laughter, Eddie's Advershow. You should go early.

SUMMONS IN ACTION TO ESTABLISH TITLE

Action No. 12186

In the Superior Court of the State of California, in and for the County of San Mateo.

J. P. Bonds, Plaintiff, vs. All Persons claiming any interest in the above real property herein described, or any part thereof, Defendants.

The People of the State of California: To all persons claiming an interest in, or lien upon, the real property herein described or any part thereof, defendants, greeting:

You are hereby required to appear and answer the complaint of J. P. Bonds, plaintiff, filed with the Clerk of the above entitled Court and County, within three months after the first publication of this summons, and to set forth what interest, or lien, if any, you have in or upon that certain real property of said J. P. Bonds, State of California, particularly described as follows:

PARCEL ONE.

Lot 34 in Block 26, as designated on the Map entitled "Map No. 1 of the Lands of the Union Park Land Company," which Map was filed in the office of the Recorder of the County of San Mateo, State of California, on February 16, 1922, and a copy thereof entered in Volume 2 of Maps, at page 50.

PARCEL TWO.

Lot 26 in Block 26 as designated on the Map above referred to.

PARCEL THREE.

Map 9 in Block 39 as designated on the Map above referred to.

And you are hereby notified that, unless you so appear and answer, the plaintiff will apply to the Court for the relief demanded in the complaint, to-wit: That it be adjudged that the plaintiff is the owner of said property in fee simple absolute; that his title to said property be established and quieted; that the rights, titles, interests and claims in and to said property, and every part thereof, present or future, vested or contingent, or whether the same consists of mortgages or liens of any description; that the plaintiff recover his costs and expenses incurred in the premises.

WITNESS my hand and the seal of this Court.

Dated July 27, 1926.

ELIZABETH M. KNEESE, Clerk.

By G. R. Winter, Deputy Clerk.

W. H. Clay, Attorney for Plaintiff.

MEMORANDUM

The first publication of this summons was made in the Daly City Record newspaper on the 30th day of July, A. D. 1926.

The following persons are said to claim an interest in, or lien upon, said property adverse to plaintiff:

J. H. Dennis, Colma, California.

Daniel R. Carroll, San Francisco, California, and Mary Doyle, San Francisco, California, as the heirs and devisees of the Estate of Annie Carroll, deceased.

J. H. Rossetter, San Francisco, California, Joseph H. O'Brien, San Francisco, California, and John H. Hutton, Salt Lake City, Utah, as Trustees for the stockholders of the Union Caring Park Association, a defunct corporation.

First publication July 30, 1926.

Last publication October 1, 1926.

NOTICE OF TRUSTEES' SALE OF REAL PROPERTY

WHEREAS, B. H. STEVENS and DORIS J. STEVENS, his wife, as grantors, did execute their deed of trust dated the 7th day of March, 1923, to HERMAN DIECKMANN and D. A. STEINBAUGH, as trustees, for the benefit of the BAY VIEW BUILDING & LOAN ASSOCIATION, a corporation, and the holder of the promissory note of said grantors, in and to said association, in the sum of three thousand dollars (\$3000), secured by said deed of trust, which said deed of trust conveyed to said trustees the real property hereinafter described, and was recorded in Volume 70 of Official Records at page 15, in the office of the County Recorder of San Mateo County, California, on March 16th, 1923; and

WHEREAS, default has been made by said grantors in the payment of the said promissory note and the debts and obligations and interest thereon, secured by said deed of trust, and said BAY VIEW BUILDING & LOAN ASSOCIATION did heretofore demand of said trustees forthwith to proceed to sell the land described in said deed of trust and hereinafter described, in the manner and pursuant to the terms of said deed of trust and to execute the said deed of trust created; and

WHEREAS, the said BAY VIEW BUILDING & LOAN ASSOCIATION did heretofore pursuant to the statute heretofore made and provided, and on the 22nd day of June, 1926, record its notice of default and election to sell said property, in Volume 229 of Official Records, at page 312, in the office of the County Recorder of San Mateo County, State of California, on March 16th, 1923; and

WHEREAS, pursuant to the provisions and covenants contained in said deed of trust, the said BAY VIEW BUILDING & LOAN ASSOCIATION did by resolution duly adopted heretofore, appoint ALFRED BOTHE, as such trustee, to execute the trusts created by said deed of trust in the place of D. A. STEINBAUGH, and the said D. A. STEINBAUGH, did by an instrument in writing convey heretofore to said ALFRED BOTHE, all the title, powers, interests, duties and trusts in the premises vested in or conferred upon said D. A. STEINBAUGH as such trustee by said deed of trust, and said conveyance so duly executed by said D. A. STEINBAUGH to said ALFRED BOTHE, together with a copy of such resolution of said corporation, certified by the secretary of said corporation, under its corporate seal, and attached to said instrument of assignment, conveyance and transfer, was heretofore, on the 21st day of December, 1923, duly recorded in the office of the County Recorder in Volume 96 of Official Records, at page 378, reference to which is hereby made; and whereas, the said ALFRED BOTHE, by virtue thereof is the successor and assign and substituted trustee in place and stead of said D. A. STEINBAUGH.

NOW, therefore, pursuant to the said demand and in accordance with the terms and under the authority of said deed of trust, the said ALFRED BOTHE, as such trustee, hereby gives notice that on Tuesday, the 15th day of October, 1926, at the front of 10 A. M. of said day, he will sell at public auction to the highest bidder for cash, in gold coin of the United States of America, the hereinafter described property, or such part thereof as they shall deem necessary to sell in order to accomplish the objects of the trusts in said deed of trust provided, that the property hereinafter referred to and which will be so offered for sale is the following, to-wit:

The piece or parcel of land situated in the County of San Mateo, State of California, more particularly described as follows: to-wit:

The southeasterly 20 feet of Lot 20 and the northwesterly 15 feet of Lot 21, in Block 6 as designated on the map entitled "Plat of the Diamond Tract, Bay Shore District, Visitation Valley," which map was filed in the office of the County Recorder of the County of San Mateo, State of California, on April 4, 1910, in Vol. 7 of Maps at page 15.

Together with the improvements thereon.

All bids and payments for said property shall be made in gold coin of the United States of America at the time of said sale.

Dated at the City and County of San Francisco, State of California, September 21, 1926.

HERMAN DIECKMANN, ALFRED BOTHE, Trustees.

(1st pub. Sept. 24, 1926.)

The travel editor of the Pathfinder radioed his first impressions of Norway: "Numberless fjords and Fords here."

Now they are going to publish the love letters of William Pitt. Aren't modern ones racy enough?

SUMMONS

No. 11968.

In the Superior Court of the State of California, in and for the County of San Mateo.

Action brought in the Superior Court of the State of California, in and for the County of San Mateo; and the complaint filed in said County of San Mateo in the office of the Clerk of said Superior Court, by WILLIAM E. COOPER, Plaintiff, vs. MELBAINE COOPER, Defendant.

The People of the State of California: You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the State of California, in and for the County of San Mateo, and answer the complaint filed therein within ten (10) days (exclusive of the day of service) after the service on you of this Summons, if served within said county, if served elsewhere within thirty days.

And you are hereby notified that if you fail to so appear and answer, the plaintiff will take judgment for the money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Witness my hand and the Seal of the Superior Court of the State of California, in and for the County of San Mateo, this 13th day of May, 1926.

ELIZABETH M. KNEESE, Clerk.

By C. R. Golden and Joseph M. Trusty, Attorneys for Plaintiff.

BUSINESS judgment BROUGHT HOME

YOUNG Mrs. Wellford was talking about her husband's recent illness.

"Bill was home for a whole week. It was his first real chance to see me in action as a housewife—we've been married only a year, you know."

"The third day he said to me: 'Sally, you need an Extension Telephone. You're wearing yourself out, running up and down stairs and from room to room every time the telephone rings. I never realized before how much a woman will put up with without complaining. I wouldn't stand for it a minute in my office.'"

(Wellford's Inc. was a model office.)

"And so?" said her visitor.

"There it is," said Sally proudly.

An Extension Telephone costs only a few cents a week.

THE WORLD'S GREAT EVENTS

ALBERT PAYSON TERHUNE

The Crusades

A DWARF—misshapen, bearded, ungainly—sat on a lean, shaggy donkey, in the midst of a shrieking multitude and brandished a huge crucifix above his head. His shouted exhortations were echoed and re-echoed by the crowd.

The dwarf was known as Peter the Hermit. He was pleading with his Eleventh-century audience to wrest the Holy Land from the grip of the Mahometan infidels. And so eloquently did the little priest urge his cause that he aroused a world-wide wave of enthusiasm and set afoot a mighty international agitation which endured for centuries.

Mahomet's successors held the Holy Land. Christians on pious pilgrimages to the Savior's birthplace and tomb were robbed, insulted and even murdered by these Moslems. Sacred shrines were profaned or destroyed. These outrages aroused Peter the Hermit; and, in the latter part of the Eleventh century, he went from country to country, urging all Christians to sweep the Holy Land, and especially the Holy City, Jerusalem, clear of Mahometans and to avenge the injuries perpetrated on Christian pilgrims. Pope Urban II approved the plan and promised remission of sins to all who should enter on this holy war.

All Europe went mad with religious zeal. "Id Deus vult!" ("God wills it!") was their war cry. Thousands and hundreds of thousands donned the blood-red cross which was to be the badge of the mission.

Debtors, felons, servants, monks and other classes bound in one way or another were freed on promise to march against the infidels. An enormous international army was raised for the purpose, its chief commander being Godfrey du Bouillon, duke of Lorraine. But early in 1096, before the organized expedition could get under way, a disorganized mob of 200,000 men, women and children, under the personal leadership of Peter the Hermit, started across Europe for Jerusalem. They never reached their destination. Without discipline, food, sufficient arms, they struggled on toward their ranks daily thinning from rough desertion, disease and famine. At all of that vast motley horde a mere 7,000 reached the eastern banks of the Bosphorus. There they were taken upon and literally cut to pieces by the Turks.

On August 15, 1096, Godfrey de Bouillon's host began its march to Palestine, reaching Constantinople on Christmas day. Wrangles of various sorts, disputes as to precedence in command, bad management and insufficient supplies hampered their movements from first to last. The expedition, which started with so holy an aim, began to feel the influence of politics, corruption and personal ambition. Nevertheless, held together by God's genius, they defeated one after the other, the Mahometan armies sent against them, and at last laid siege to Jerusalem itself. The Holy City fell after a month's defense, and the pious crusaders put to death in a horrible fashion every Mahometan dweller they could lay their hands on. Men, women and even babies were slaughtered mercilessly by these soldiers of the Gospel of Peace, and the city was chosen king of Jerusalem. A second crusade, urged on by St. Bernard and led by Louis VII of France, followed a few years later. An unsuccessful effort was made to capture Damascus, and, altogether, there was without any real results. Eighty-eight years the Christians held Jerusalem. Then the Moslems recaptured it.

In 1190 a third great crusade was the prime mover and leader King Richard I of England, surnamed the Lion Heart.

The leaders quarreled among themselves and swerved from the true of their mission. They won barren victories, but failed to win Jerusalem.

Ade followed crusade, none true success. At length the spread that the expeditions because of the sins and worldly men who embarked upon

THE KITCHEN CABINET

It is not so much from any superior genius that one man possesses over another, but more from attention to study, and perseverance in the objects before them than some men rise to greater eminence than others.—John Dalton.

DIET FOR THE AGED

Diet for the aged is much neglected. To live long and to remain well and active is the object of every normal man or woman.

As old age comes on, nature loses the inclination for exercise, but unfortunately she does not lose her appetite in the same ratio. Our eating should adapt itself to our activities, and thus, by abstemious living, we will do away with many of the diseases subject to old age. From twenty to forty the vital organs are young and respond to their demands without apparent difficulty, but at sixty the stomach and liver are beginning to resent overwork—the exercise, life in the open air, and the work of earlier years are missed, and the body feels the strain.

Walking and swimming are the best exercises, keeping the organs in fine working order. Walking will soon become a lost art, with the automobile at the door to save every step. Golfing is helping to keep active many who would otherwise take no exercise, but the proportion of golfers is still very small.

The result of overeating and under-exercising develops fat, superfluous material which clogs the system and chokes the vital organs. This clogging tends to auto intoxication or self-poisoning which causes rheumatism, gout, neuritis, hardening of the arteries and various other troubles. Tissue-building foods should be partaken of sparingly, as their need is past, though they are needed in the diet to add variety.

Meat should be eaten very sparingly, not oftener than once a day.

The aged who are overweight should avoid fats, eating sparingly of root vegetables and scarcely any sweets.

A good diet for seventy and seventy-five should be made up of fruit, vegetables (mostly green), some fish, eggs, and very little meat, with simple cereals.

The more an aged person exercises, the more food he may eat and assimilate. When one has reached the age of sixty with no disease shadowing him, he should by right living show his gratitude by refusing to become indolent and thus invite disaster.

Two quarts of water or more should be taken each day between meals. Water is one of the essentials to good health. It is needed to soften the food, so that the digestive juices may act upon it and thus nourish the tissues, and fully as important, flush the system. Too little water is drunk by the great majority of adults.

Fried mush is always a welcome breakfast dish served with butter and maple syrup.

Tea and coffee in moderate strength and reasonable amount are not injurious to those who have formed a taste for them.

Fresh Vegetables.

It is surprising how soon one will be satisfied with meat but once a week, after trying to serve vegetables and other foods to take its place.

Too much meat is unquestionably bad for the health, but a little occasionally is better than a restricted diet of vegetables unless under the doctor's orders.

Cabbage is such a wholesome vegetable and one may serve it in such a way that it is sufficiently nourishing for a main dish.

Take a small hard head of cabbage and drop it into boiling water slightly salted to cook until tender. Drain and place on a hot chop plate. Prepare a rich white sauce, adding just at the last a cupful of finely chopped rich cheese. Stir until well dissolved in the sauce, then pour over the cabbage, which has been cut into pie-shaped pieces.

Another nice way to serve cabbage is with milk. Cook until tender, dress with butter after being well drained and add enough rich milk and a few crackers well crumbled. Stir until well seasoned and serve hot. This is called ladies' cabbage.

Stewed Lettuce.—As the lettuce gets old and slightly tough, cook it in a little water uncovered. Dress with butter, salt and pepper and serve it with vinegar as greens.

Cucumbers are very palatable cooked and served with a drawn butter sauce, adding a little onion juice for flavor.

The tomato is delicious sliced when very ripe and served with cream as one does peaches. Sliced rather thick and fried they are liked by many. Serve as a garnish to a platter of meat.

Onions With Cheese Sauce.—Cook onions until tender, then place them in a baking dish with a layer of rich white sauce and a layer of good cheese finely cut. Bake covered with buttered crumbs and serve hot.

Nellie Maxwell

FIND BUS OPERATION IS UNPROFITABLE

Bus Makes Easy Work of Going From One Town to Another.

The Indiana public service commission finds that expenses of all motor-bus companies operating in the state last year, according to their reports, was \$3,283,400. This was \$159,020 more than the revenue derived from the 457 routes operated by 206 companies all over the state.

There were 158 companies that showed a net profit above operating expenses. But the losses of the other 48 firms offset their profit and left the state total in the red. These, for the most part, were bus routes operated by traction and street-railway companies, the records showed.

Many Routes Discontinued. However, since the inauguration of the bus law last year that placed their operation under the jurisdiction of the public service body, there have been several companies that have gone under, and 73 of the routes have been discontinued, while many companies have sold out to competitors.

Almost one out of every six routes that have been authorized by the commission, John W. McCardie, chairman, says, have been doomed to die naturally.

When asked what was the cause of the high percentage of abandonments, and the enormous loss to operators, his reply was: "Private automobiles."

Salesmen Drive Own Cars. "It's too easy now to jump in an automobile and drive from one town to another. The roads are good," he said.

Traveling salesmen who used to furnish a large source of revenue for utilities and would have been a means of making a profit for the bus operators now are driving their own cars. It is more expedient. And one source of revenue is shut off.

About 10 per cent of the companies operating motor-bus lines, McCardie says, have been forced to return their buses to the selling companies.

SWEEPING TURNS IS BAD DRIVING

Slows Up Traffic in Rear and Is Difficult to Do, Says Expert.

Motorists who have been accustomed to making sweeping left turns, to the chagrin and delay of all other drivers behind, can listen with advantage to H. M. Lucius, secretary of the Automobile Club of Maryland, who prescribes a simple formula for overcoming this driving deficiency. Discussing the subject, Mr. Lucius says:

"At every corner we find some driver who gets himself into a jam and holds up the whole traffic stream because he pulls to the right to make a left-hand turn and to the left to make a right-hand turn."

"I have spoken about this many times, but, from the number of people who still make the mistake, it will not hurt to discuss it again."

"What puzzles me is that every motorist who has been driving longer than a month has not discovered the little secret long ago. It would seem that the difficulties they get into would show them their mistakes."

Want Plenty of Room.

"The instinct that prompts them to pull wide for a corner, of course, is easy to see. They want plenty of room to make the turn. But what I can't understand is that these drivers haven't found that the turning radius on present-day automobiles has decreased to a point where a short turn can be taken with the longest car."

"Here is the trick in a nutshell: By pulling to the left-center for a left-hand turn, you will cut you off by passing on your left. Straight and right-hand traffic will go by on your right and you can watch your chance to get through the oncoming line."

"Similarly, by pulling over to the right-hand curb for a right turn, no one can cut you off and straight traffic will go by on your left."

Many Can't See It.

"Simple, isn't it? Yet there are countless automobilists who cannot seem to get it through their heads. If

I saw such a mistake only occasionally I would not speak again of it, but every day at almost every corner dozens of drivers mess up the traffic stream and get themselves into bad humor by a perfectly simple mistake on their own part.

"Also drivers will find their turn easier if they give their hand signal in plenty of time when about to make a left turn. When about to make a right turn, it is best to make a decided move toward the cross street. Holding out your hand only holds back the cars behind when they might be sweeping by, for they watch for you to make a left turn."

Spark Plug Tester Very Useful for Garage Men

It is difficult to determine the condition of a spark plug, unless the plug can be subjected to pressure, for under atmospheric pressure a spark will leap across the electrode gap, even if the porcelain or mica is broken down. For this reason, every garage or repair shop should have a compressed

This Spark-Plug Tester Will Detect Defects Immediately.

sion tester, a device in which the plug may be placed and subjected to a pressure of from 60 to 75 pounds a square inch, then connected with a coil and the action of the spark noted. To make such a testing box, obtain a 4-inch iron pipe nipple, about 6 inches in length, and fit it with two pipe caps. In one of the pipe caps drill and tap a hole large enough to receive the spark plug. Usually two testers will be necessary.—Popular Science Monthly.

FEMALE OF DRIVER SPECIES LESS DEADLY THAN THE MALE

The female of the species who drives an automobile in California is not more deadly than the male despite Kipling's findings.

Will H. Marsh, chief of the division of motor vehicles at Sacramento, pointed to his records to prove that women drivers have fewer serious accidents and are more careful than men.

Neither is the urge for speed so prevalent among women, Marsh finds, notwithstanding all that has been said and written about jazzmania and the tendencies of the present generation to live at a fast pace. "Women are naturally more cautious," said the motor vehicle chief; "they make up for their lack of knowledge about motors by taking fewer chances and if they don't always give the correct hand signal at least they give some sort of signal which is more than hundreds of men do."

"They are more careful at crossings and have more respect for dangerous curves. In short, they display more horse-sense on the average than men."

The number of women driving is increasing at a fast rate, Marsh added. Although only about 15 per cent of all California drivers are women, nearly one-third of the applications received for new cards are filed by women.

Covered Wagon Pioneer Quickly Restored to Health

Was So Weak Could Scarcely Use Arms or Legs. Sacramento Resident a Victim of "Flu," Loses Weight and Vitality. Finds Long-Sought Relief. Strength Restored. Praises Tanlac.

Pioneer blood flows in the veins of Frank Rikert, Box 1035, R. R. 10, Sacramento, Calif., a prominent stockman who trekked over the rough, hazardous trails from Illinois in the early sixties. But even his brawn, muscle and splendid health broke under the strain of modern living. "Flu" left its mark and threatened his life. "I didn't care whether I lived or died, I felt so badly," said Mr. Rikert, "when I began taking Tanlac. My strength had vanished, sapped by the 'Flu.' My arms and legs were so weak that they were almost useless. I couldn't even turn over in bed without help, so completely undermined was my strength and vitality."

"One night my wife saw the Tanlac advertisement in the paper and urged me to try it. I bought a bottle and started taking it, and I felt better right off. In a few weeks I was able to do all my work. Not only did my weakness disappear, but I actually gained twenty pounds, and I have felt fine ever since."

"Yes, sir, I firmly believe that Tanlac saved my life. Naturally, I'm so enthusiastic about Tanlac I am telling all my friends it's a great medicine."

and I'll praise it as long as I live." Tanlac helps conquer ailments and builds up strength in famished bodies. It banishes pain and frees the system of poison caused by constipation and sluggish liver. It is Nature's own remedy made from roots, barks and herbs according to the famous Tanlac formula. Begin taking Tanlac and enjoy the benefits of strength and golden health. The first bottle usually brings results that will surprise you. Ask your druggist for Tanlac—today! Over 40 million bottles sold.

Salt Water in Fire Mains

Seaside cities such as Lynn, Mass., may soon be fighting their downtown fires with salt water driven through high-pressure mains by electric pumps that are started by the fire alarm system. This type of fire protection is considered to be cheaper and more dependable than the ordinary method of using fresh city water for the purpose.

Seeing Herself

"Why do you go with Helen?" "I use her as a foil." "She says the same about you." "She does? The deceitful thing!"—Boston Transcript.

The firm that exported the celebrated chests of tea that figured in the "Boston tea party" is still doing business in London.

CHILDREN CRY FOR

MOTHER:—Fletcher's

Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Lost His False Teeth

When Burlington passenger train No. 43 arrived at Alliance, Neb., several minutes late recently, William Zollinger, conductor, handed in the following report of the delay at divisional headquarters: "Ten minutes delay looking for false teeth." Zollinger's teeth fell out of a window when he sneezed. Stopping the train by a sudden jerk of the air cord, he searched ten minutes in vain for them.

A man who cannot laugh is not only fit for treasons, but his whole life is already a treason.—Carlyle.

Women Smokers Barred

Women may be seen smoking in almost all public places in New York, but that liberty is sometimes curtailed as soon as the city limits are passed. On one of the principal railroads women who invade the masculine precincts of the smoking car are politely but firmly requested by the trainmen to leave.

The innocence of the intention abates nothing of the mischief of the example.—Hall.

A laugh is a good thing—if it is on the other fellow.

TOPCOATS FOR SCHOOLGIRLS; SCHOOL FROCKS OF JERSEY

IN THE realm of junior fashions, coats tell a very different story from frocks for the coming months. In accordance with latest dictates the wraps young girls wear are quite conservative and sedate in appearance, while dresses are quite fussed up with all sorts of crafty handwork and gay trimmings.

If the little girl in the picture would let us catch a glimpse of the frock she is wearing, it would, very likely, be much be-trimmed and elaborated with

ways and byways of business life. All this, because fashion insists that whether it be in study hour, playtime or any practical occasion, we must dress in gay woollens.

Just now there is a furore for wool jersey and not without reason, for of all materials none gives better service or makes up more satisfactorily. So jersey cloth it is, according to the decision of the mode, and that in colors of irresistible attractiveness. Chiefest among the popular colorings for

A Natty Topcoat for School.

cunning detail, perhaps have a clever narrow belt with a cunning buckle in everything—but mark the simplicity and styling of the coat. Of the superior quality kind is this coat. The material is of the best, being a handsome bolivia cloth. It may be navy, wine, French blue, brown or jungle green, for each is fashionable for fall and winter. One outstanding feature is the flare hemline, achieved by godets inset in a tailored way. Other interesting style highlights are its fur collar, broad turnback cuffs and single button fastening.

It is a noteworthy fact that the new cleankings are unusually good-looking

practical worsted frocks are reds of every degree, especially channel red and the deep wine tones. Equally fascinating are the new greens, placing emphasis on jungle green, and as to blues, navy competes with truly lovely French blues, also royal. Cinnamon color jersey is as smart as smart can be, but no more so than are the handsome nasturtium colors which are now so much in evidence. Which all goes to prove that there will be no lack of color when it comes to dresses planned for practical everyday wear.

One of the endearing qualities of wool jersey is that in its suppleness

School Frock Shows Artful Shirring.

and of finest texture. Favored weaves stress, first and foremost, chinchilla cloth, emphasizing cinnamon color, French blue, navy, various reds and many shades of green, notably jungle green. There are also included tweeds of every coloring.

Very interesting linings of suede-finished fabrics complement coats of chinchilla. Thus warmth and attractiveness is combined in the school-girl's coat. One does not have to draw on imagination to sense the charm of a navy blue chinchilla lined with red. Splashes of color will brighten school room and campus throughout the coming months, also the high-

it yields most gracefully to any handling. Just now everything that can be is being shirred. As to wool jersey it puts forth its best appearance under this treatment. For proof of its eminently satisfactory adaptability to the shirring process, study this picture of a typical autumn 1926 school-girl frock. See how the necessary skirt fullness is massed so cleverly to the front by means of much shirring. Then, too, see the shirred seams across the front shoulder seams. This model is developed in wine color with a beige crepe collar and tie.

JULIA BOTTOMLEY.

RADIO

Wave Traps That Will Be of Interest to Fans.

Many radio fans complain of their sets lacking selectivity. The sets have not the power to separate stations sufficiently and their operators are at a loss to know what to do. A wave trap is the only solution if one does not want to pull his set apart again, so here is some data that will be of interest to fans troubled in that respect:

Wave traps and blocking devices are becoming more and more essential to operators of none too selective receivers, especially in congested districts where not only does one have to contend with 25 or more stations separated by the smallest possible margin, but with annoying proximity to many which are broadcasting on high power.

The better-designed receivers are not affected but a great many of the sets built in the days before so many stations were on the air, as well as many of the less selective creations of more recent months, find it expedient to use auxiliary apparatus in the form of wave traps.

Here is a commercial trap and others just as effective that can be constructed very cheaply by the listener who finds need for one in reducing to a minimum the interference of stations operating on waves too nearly the same for the unselective receiver to separate. It is sometimes necessary to use more than one trap to bring to an unobjectionable point the interfering stations. This is especially true where high power is the source of annoyance.

Series and Shunt Traps.

The simplest form of traps which are effective are series and shunt traps as well as a few variations of absorption and rejection traps.

The circuit is that given in Fig. 1 and consists of two 13-plate variable condensers, one of which is connected in series with an inductance of 65 turns of No. 26 single cotton-covered copper wire, wound on a 2 1/2-inch cardboard tube. This is the left-hand dial in the commercial unit and tunes the rejector circuit. The other condenser, adjusted by the right-hand dial, is shunted across a coil of similar dimensions, 65 turns, over which is wound a primary of 21 turns of No. 24 gauge wire, and forms the absorption side of the circuit.

The theory of operation of this circuit is very simple. The undesirable station is tuned to maximum intensity on the receiver. The rejector or left dial is then turned until the signal is reduced to the lowest audibility possible. The absorption trap is then adjusted until all perceptible reception of the undesirable station is absolutely eliminated or reduced to negligibility. The receiver proper can then be tuned to any other station that is wanted without further interference from the heretofore offending station. Where more than one station causes trouble it would be well for the operator to log the interfering stations and the proper dial settings for their elimination so as to facilitate the proper tuning of the receiver. This trap, as well as the other traps to be described, necessitates no change of wiring in the sets to which they are attached, further than connecting the antenna and ground to the proper binding posts on the trap and connecting the output of the trap or traps to the ground and aerial posts of the receiver.

Connected in Series.

Fig. 2 shows a simple trap that may be connected in series with the antenna or ground as shown. It can be made with 60 turns of No. 24 D.C.C. wire on a 2 1/2-inch cardboard tubing tapped at the 5th, 10th, 15th and 20th turns and shunted by a .005 mfd. variable condenser.

Fig. 3 is a diagram of a trap in shunt that can be made by winding a coil of the same dimensions and values as that in Fig. 2, leaving out the tapping arrangement and shunting it with a variable condenser of .0005 mfd. capacity. In addition a fixed condenser of .0001 mfd. capacity is inserted in the connection that goes to the antenna binding post of the set as shown in the diagram.

Fig. 4 gives another arrangement of a shunt trap that consists of an inductance coil of No. 34 D.C.C. wire wound on a tube 2 1/2 inches in diameter until there is a coil of wire 4 1/2 inches long. In series with this a variable con-

denser should be connected with a maximum capacity not exceeding .0002 mfd.

Fig. 5 shows an absorption trap that can be made by winding on a tube 2 1/2 inches in diameter, 65 turns of No. 24 D.C.C. copper wire shunted with a .0002 or a .0025 mfd. variable condenser. On top of this and in the center of the larger winding a 21-turn primary should be wound of approximately the same gauge wire. This may also be connected in series with the antenna.

Fig. 6 is a combination of the shunt and series traps, the specifications of which are Figs. 2 and 3.

In all cases the traps specified are for sets working on regular overhead inverted L or T type antennas and ground connections. It may be found that a single trap of any of the types given will give the desired results, but a combination of two traps will be found essential where the interference is very strong.

Radio Set Must Not

Be Roughly Handled

Although a receiving set is constructed with the greatest care and strongest materials obtainable, it will not withstand hard usage. Many operators will twist the dials, poke into the works and jab in the phone or loud speaker plugs with unthinking violence—and then wonder why their set does not remain perfect forever. A radio set will stand up under a great deal of abuse, but eventually, if continuously subjected to harsh treatment, something will give way, or loosen, and effectiveness will be reduced. The delicate wiring, adjustments and connections must be regarded with the same care that a person would exercise toward the timing gears, carburetor adjustment or valves of a car. The best engine in the world will go bad under abusive usage—and so will the best radio set.

Care in Handling Wires

When Assembling Set

When assembling a receiving set, wires which connect to the plate of the tube should be kept away from all other wires. Wires connecting with the grid should be kept away from the front of the panel and from points that connect with the ground, otherwise when the hand approaches dial a capacity effect will be introduced that will cause howls. Wires should run at right angles wherever possible and especially the plate and grid wires, if it is necessary for them to cross each other. Rigid wire should be used because flexible wire is likely to sag or swing a little if the set is jarred and tuning will be disturbed. The wire does not have to be covered with insulation. All joints must be clean, firm and soldered.

Have Iron Well Cleaned to Do Neat Soldering

A requisite to neat soldering is to first have the iron thoroughly cleaned, making sure that the connections to be soldered are also clean. Rub them slightly with a file or sandpaper to brighten the surfaces. The next step is tinning the iron. When the iron is hot, plunge into flux and apply solder to the tip, and afterwards rub with a damp cloth. When ready to solder, apply the flux very sparingly. Poor connections are caused by the use of excessive quantities. When using solder having a flux core, it is unnecessary to apply any flux in advance of soldering.

Things Worth Knowing

About the Condenser

A condenser in a receiving set is designed to have a large capacity in a small space. It consists essentially of metal plates which are insulated from each other by a dielectric or insulating material. It is used in a radio-frequency circuit to tune an inductance coil to a certain wave length, and is known in this connection as a variable condenser. It is used also to stop the flow of direct current and pass alternating current, and in this connection its capacity is fixed, and it is known as a by-pass condenser.

Small Girl's Lucky Day

Struck by a shifting engine, the five-year-old daughter of Mr. and Mrs. Gene Casanovitch of Sharpville, Pa., escaped injury or death when she was caught on the front step and carried fifty feet before the engine was stopped. Witnesses and members of the train crew looked under the engine for several minutes expecting to find the crushed body, before they saw her sitting on the step.

NEWS NOTES OF PERSONAL INTEREST

By MARC WORST

Mrs. Jean O'Rourke spent Tuesday in Redwood City on business.

The pupils of Jefferson Union high school have agreed to contribute to the Florida relief fund.

Mrs. Kirchoff and Mrs. H. O'Connor spent a pleasant day last Thursday in Palo Alto as the guests of the Roberts family.

A whist party and dance is to be held at the Daly City Auditorium Tuesday evening, October 19, by the St. Maximus Girls' Club.

Trustee A. Bodien, chairman of the "Fourth of July for 1927" committee, announces that further committee meetings will be postponed until the first of the year.

Marshal Doyle suggests that all enterprising student mechanics of Jefferson high school practice racing with mufflers open around the high school rather than through the streets of Daly City. Thank you!

Mrs. C. Poket is assisting City Clerk B. C. Ross this week in preparing the tax reports and assessments.

Colma-Vista Grande Aerie No. 1848, will hold the largest class initiation in its history on November 18, in the Eagles' Hall.

Mrs. Lorraine Wall and Maggie O'Connor, with a party of friends, spent an enjoyable Sunday on a launch ride to Paradise Cove.

It is said that Daly City has a new poundmaster, who desires to keep his identity secret until he can get in some fast work on locating unlicensed dogs. Watch out!

Mrs. H. Elmers, chairman of philanthropy, Woodrow Wilson-Vista Grande P. T. A., announces a meeting to be held at Ryan's Hall, next Monday, October 4, at 1:30.

Parents, teachers and P. T. A. workers met at a "get-acquainted" dinner and reception in honor of the Jefferson Union high school faculty last Monday night, at the high school.

A very successful whist was held Wednesday afternoon by the ladies of the St. Maximus parish in the church hall.

In a thrilling, hard-fought football game, Jefferson high tied the Commerce second team by a score of 7 to 7. The game was played Thursday at Jefferson.

The ladies of St. Maximus church will hold a whist Tuesday, October 5, in the Daly City Auditorium. This is the big monthly whist, so don't miss it.

Mrs. F. Junker, president of the Woodrow Wilson-Vista Grande P. T. A., has called a special meeting of its members at her home, 149 Miriam street, next Thursday, October 7, at 1:30.

The Jefferson Union high school band is practicing hard under the direction of H. Kleemeyer, in preparation for the high school P. T. A. show to be held on October 5 at the State Theatre.

On Thursday and Friday, October 7 and 8, by popular request the New State Theatre will present for the last time our beloved Rudolph Valentino in "The Sheik." See Rudy in one of his biggest successes.

Readers of the Record can help make the paper more interesting by sending in items of news. It is impossible for the reporters to cover the entire field, and all items of a local nature will be appreciated.

A meeting of the Jefferson High Alumni Association was held Wednesday at the high school. A rough draft of the constitution was made and the constitution committee will meet next Monday to complete details.

The hardware establishment of J. T. Shannon presents a most pleasing appearance, the building having recently been painted and other improvements made which make Mr. Shannon's place of business most attractive.

The regular monthly whist for the benefit of St. Maximus church will be held in the Daly City Auditorium next Tuesday, October 5, commencing at 8:30 sharp. The whist will be followed by a dance, admission to which will be free.

Mrs. J. Twisten, of 198 Los Banos avenue, entertained a number of friends at her home Tuesday evening. The time was spent at whist, followed by delightful refreshments. Those present were Mesdames H. H. Smith, W. White, M. Firman, M. Rampe, William Burdick, A. Romer, J. Headwall, A. Natusch, A. Gehring, M. Rucker, L. T. Cook and L. Nelson.

At the surprise milk scoring contest just completed by the State Dairy Bureau on San Mateo county milk supply, the average score was found to be 92.3. "This score for the San Mateo county milk should be of considerable interest to the public," said H. E. Ball, market milk specialist of the State Department of Agriculture, "for it assures the consumers that the milk they receive is of the highest quality, when judged by the score card."

The Ladies' Auxiliary of Company No. 4, Daly City Volunteer Fire Department, attended the play, "Love 'Em and Leave 'Em," last Monday evening at the President Theatre, San Francisco. Those in the party were: Mesdames A. Chesney, J. Doyle, A. Hilton, Olliotti, E. Jordan, J. Viotti, S. A. Landini, A. Fonseca, A. Bodien, O'Connor, Fenstermaker, P. Ross, D. Donovan and A. Vireno. After the show all went to the State's Restaurant, after which they returned home declaring they had enjoyed the party to the utmost.

Mrs. Bowley, of Brunswick avenue, died at St. Luke's hospital on Wednesday morning. Funeral services, to be conducted by Rev. Chas. H. Gatchell of Grace Presbyterian church, will be held this Saturday afternoon at 2:30 from Monahan's parlors.

A very interesting meeting was held Tuesday evening by the St. Maximus Girls' Club. At the close of the social the Alhambra Club entertained the girls with several features. These meetings are held the last Tuesday of each month and all the young ladies of the parish are welcome.

Crocker Chapter No. 382, Order of the Eastern Star, held a reception Wednesday evening in the Masonic Temple, in honor of Mrs. Stella L. Jensen, Deputy Grand Matron. Nine Chapters within the district were represented at the meeting, a large number of members being present to do honor to Mrs. Jensen.

The ladies of the Guild of Grace Presbyterian church will hold their regular luncheon on Wednesday, October 6, at 12, noon. This luncheon is particularly worthy of consideration as it is being donated by Mr. E. Knolls and Mr. Ernest Mecco of the Peninsular Market. A good luncheon is promised and a good time is expected, so come on.

The editor of the Record is back on the job after a three weeks' absence from Daly City, attending the annual convention of the International Typographical Union in Colorado Springs, where he represented the San Mateo Typographical Union. He visited his sister in Colorado, and friends in Salt Lake and Ogden, Utah, and had a splendid time, but is glad to get back to Daly City.

Andrew Alberigi, of 1046 Hanover street, driving a Dodge roadster, crashed into a Ford sedan driven by William Dudley of 271 Irving, last Wednesday at 12:15 a. m., at the corner of Crocker and Irving. Both cars were wrecked, the Ford overturning. Marshal Doyle, on the job as usual, took Dudley to the office of Dr. Rankin, where he was treated for minor injuries. The wrecks were cleared away quickly.

While driving his Ford touring car north along Mission street towards San Francisco, Albert Van Stolen, of Wrights, California, was slightly injured Monday evening at 8 o'clock. To avoid hitting a Buick touring car driven by W. G. Levy of Steiner street, San Francisco, who was turning into Templeton avenue, Van Stolen swerved and his car was overturned, crashing into Cohn's dry goods store. Mr. and Mrs. G. Yeager were riding in the Ford, which was wrecked. Mrs. Yeager was badly bruised and shaken up. Marshal J. Doyle arrived on the scene immediately and took command. Mrs. Yeager was rushed to the San Francisco hospital and the street cleared of the wreck. As the accident appeared unavoidable, no arrests were made.

HEARST'S PAPERS FAVOR GAS TAX

The San Francisco Examiner, the parent of all the Hearst newspapers, and whose editorial expressions on state issues customarily reflects the attitude of the other five California Hearst newspapers, has declared emphatically for the one cent gas tax measure, Proposition 4 on the November ballot, and as emphatically against Proposition 8, the Los Angeles highway measure.

The gas tax measure is described by the Examiner as an "all-California" measure, whereas Proposition No. 8 is called a "sectional" measure, and for that reason alone should be defeated.

TELEPHONE NOT SO WELL KNOWN ON BANKS OF NILE

In America the telephone plays such a large part in our daily lives that a person unfamiliar with its use is almost incomprehensible. However, strange as it may seem to us, the telephone is not so well known in other parts of the world, and many humorous stories are told concerning it.

Manager J. F. Adams of the Burlingame exchange quotes the following taken from the Northwestern Telephone News as an example: "An enterprising merchant on the banks of the Nile had a telephone installed in the back room behind his store. As he happened to be in front waiting on a customer when the telephone bell rang for the first time, he sent his shop assistant to answer it. But, alas, the shop assistant, though very anxious to please, had but little acquaintance with modern systems of electrical communication. Upon answering the telephone he learned that some one wished to speak to his employer. Whereupon, this obliging young man immediately cut the wire and carried the telephone bodily into the front room so that the merchant might talk through it without leaving the counter."

TAX RATE SET AT \$1.77

South San Francisco's tax rate for 1926-27 was definitely set at \$1.77 per \$100 assessed valuation, at a meeting of the board of trustees, when a resolution was passed setting this rate and ordering the collection.

BORDER PATROL AGAINST PROHIBITION VIOLATORS

A new, drastic move by the government against booze and narcotic smuggling along the Pacific coast was announced Thursday by Collector of the Port W. B. Hamilton with appointment of a customs border patrol of fifteen men for duty along the coast from San Luis Obispo to the Oregon line. Working under the jurisdiction of the local customs office, the patrol will have the powers both of prohibition agents and deputy collectors of customs, allowing them to board vessels at sea. They will be divided into convenient groups, and will be equipped with fast power boats and automobiles and stationed at intervals along the coast.

Hetch Hetchy Cost \$46,647,488

San Francisco's Hetch Hetchy project has cost \$46,647,488.17 to date, it was disclosed Thursday when City Treasurer Theiler announced his daily balance and disclosed the virtual exhaustion of the funds derived from the 1910 bond issue. Of the \$42,000,000 realized from the \$45,000,000 issue
